AMERICA,
Application
No. 85606308

(1) Computer software for receiving, storing, and
transmitting health care data and for facilitating and
coordinating home healthcare services, making
assessments of patients by home healthcare workers,
tracking home healthcare worker visits, and automating
scheduling and work flow of home-healthcare workers, all
of the above being for healthcare staff management and
not relating to tracking vehicles or vehicle fleet
management

(1) Providing a web hosting platform for receiving
healthcare data from home healthcare workers, storing
healthcare data, and transmitting health care data to home
healthcare workers, and for facilitating and coordinating
home healthcare services, accepting and reporting
assessments of patients by home healthcare workers,
tracking home healthcare worker visits, and automating
scheduling and work flow of home healthcare workers;
Providing an Internet website portal for receiving
healthcare data from home healthcare workers, storing
healthcare data, and transmitting health care data to home
healthcare workers, and for facilitating and coordinating
home healthcare services, accepting and reporting
assessments of patients by home healthcare workers,
tracking home healthcare worker visits, and automating
scheduling and work flow of home healthcare workers;
Hosting servers on a computer network for the purposes
of receiving healthcare data from home healthcare
workers, storing healthcare data, and transmitting health
care data to home healthcare workers, and for facilitating
and coordinating home healthcare services, accepting and
reporting assessments of patients by home healthcare
workers, tracking home healthcare worker visits, and
automating scheduling and work flow of home healthcare
workers, all of the above being for healthcare staff
management and not relating to tracking vehicles or
vehicle fleet management
