Vienna information (Code & Description)

14.1.13	Chains, links of chain
A 14.1.15	Links of chain
25.7.1	Surfaces or backgrounds covered with repeated geometrical figures or designs
A 25.7.7	Surfaces or backgrounds covered with dots
A 25.7.6	Surfaces or backgrounds covered with circles or ellipses

Goods (Nice class & Statement)

(1) Microglass fiber, polyester and synthetic felt filter media for removing particulates in commercial and industrial applications, namely, in-plant equipment, lube systems and return line hydraulic systems; gas filters for commercial and industrial applications, namely, filters for motors and engines to remove contaminants from gases; filters for commercial, industrial and on and off-road vehicle applications, namely, filters for air, axial flow, centrifugal, electric, gas, reciprocating and rotary compressors, compressors as parts of machines, motors and engines, and compressors for machines used in commercial and industrial applications; air filters for mechanical purposes in the field of telecommunications, computer networking, power generation, medical and transportation equipment and military electronics; air filters for removing dust for use in commercial and industrial applications, namely, filters for centrifugal, cyclone, dust, oil, and vibratory screen separators and oil-water separators for pneumatic controls being part of machines used in commercial and industrial applications; air, gas and oil filters for motors and engines; oil filters for motors and engines; air filters for mechanical purposes with respect to forced air cooling and ambient air ventilation of electronics and machinery enclosures; air filters for use in laboratories for removing dust, smoke and allergens from the air; laboratory filters, namely, liquid and water filters; air filters for medical applications, namely, air filters and air filtering units having a removable diffuser for removing dust, smoke, allergens and other contaminants from the air; air filters for industrial installations in the field of telecommunications, computer networking, power generation, medical and transportation equipment and military electronics; dust filters, namely, filter cartridges and filter housings for use in the removal of impurities from liquids, namely, water filters for water filtering units for industrial and commercial use; air filters for industrial air filtering installations for use in removing dust, smoke, allergens and other contaminants from the air; HEPA filters for commercial, industrial and medical use; ULPA filters for commercial, industrial and medical use; air filters for industrial installations with respect to equipment protection for telecommunications, computer networking, power generation, medical and military industry

Services (Nice class & Statement)

Classification data

Disclaimer

Claims

Priority Filing Date: October 16, 2012,
Country or Office: UNITED STATES OF AMERICA,
Application No. 85/755,

656 in association with the same kind of goods and in association with the same kind of services
 Used in UNITED STATES OF AMERICA
 Registered in or for UNITED STATES OF AMERICA on February 18, 2014, under No. 4483458

equipment; membrane filter cartridges for the separation of biomolecules in biopharmaceutical production, wastewater treatment and the removal of impurities in beverages; filters made of fiber for water filtering units for industrial and commercial use; water treatment equipment, namely, water filtering units and reverse osmosis water filtering units for commercial and industrial use; water filtering and purifying units for commercial and industrial use and replacement cartridges and filters therefor; vehicle transmission parts, namely, metal retaining rings and filters.

(1) Distributorships in the field of air, gas, fuel, oil, liquid, fluid and water filtering units and parts therefor in association with commercial, industrial and medical applications, motors and engines and in the field of telecommunications, computer networking, power generation, medical and transportation equipment and military electronics; installation and maintenance of air, gas, fuel, oil, liquid, fluid and water filtering units and parts therefor in association with commercial, industrial and medical applications, motors and engines and in the field of telecommunications, computer networking, power generation, medical and transportation equipment and military electronics; testing of air, gas, fuel, oil, liquid, fluid and water filtering units and parts therefor in association with commercial, industrial and medical applications, motors and engines and in the field of telecommunications, computer networking, power generation, medical and transportation equipment and military electronics.

7 - Machinery
 9 - Electrical, scientific and teaching apparatus and software
 10 - Medical and veterinary devices
 11 - Environmental control items
 12 - Vehicles
 17 - Rubber and rubber goods
 24 - Textiles and textile goods
 35 - Advertising, marketing, promotional and business
 37 - Building construction and repair
 42 - Computer and scientific
