**Goods (Nice class & Statement)**

- 6 (1) Metal building materials and metal construction elements, namely, rails, bridges, beams, ceiling boards and floor boards, braces, and supports and parts for all the aforementioned goods; unprocessed and partially processed metal materials not adapted for a specific use, namely, unwrought and semi-wrought common metals and parts for all the aforementioned goods; metal hardware, namely bridges, beams, rails, washers, springs, pulleys, brackets for general use, hardware nails, hardware springs, metal hardware bolts, metal hardware nuts, metal hardware screws, metal hardware for windows and doors, washers being metal hardware and parts for all the aforementioned goods; doors, gates, windows and window covers made of metal and parts for all the aforementioned goods; structures and transportable structures made of metal and parts for all the aforementioned goods; statues and works of art made of base metals and parts for all the aforementioned goods; containers and articles of transport and packaging made of metal and parts for all the aforementioned goods
- 7 (2) Agricultural machines, namely cultivators, harvesters, disk harrows and seeders and parts for all the aforementioned goods; earth moving machines and parts for all the aforementioned goods; concrete construction machines and parts for all the aforementioned goods; skid-mounted oil and natural gas extracting machines, namely pumping skid-steer loaders and parts for all the aforementioned goods; mining equipment, namely mine borers and parts for all the aforementioned goods; pumps, compressors and fans and parts for all the aforementioned goods; industrial robots, namely, industrial robots for welding, industrial robots for working metal, industrial robots for working wood, cargo handling robots for use in warehouses, industrial robots for handling parts and parts for all the aforementioned goods; removal and transport equipment, namely, cranes, telehandler lifts, pneumatic transporters, pipe layers, fork lifts, and parts for all the aforementioned goods; electric generators and parts for all the aforementioned goods; machines and machine tools for material processing and production, namely, metalworking machines and machine tools, machines for drilling and grinding, milling and turning machines and parts for all the aforementioned goods; machines and machine tools in the nature of lines composed thereof for material processing and production of floor coverings, wallpaper, paperwebs, films and technical textiles and parts for all the aforementioned goods; motors, drives,

9

machine parts and controls for the operation of machines and motors, namely, servo motors, direct current motors, electric motors for machines, power tool motors, drive pulleys, drivelines being parts of machines, driving belts for machines, driving belts for motors, other than for land vehicles, ball valves being parts of machines, hydraulic actuators and parts for all the aforementioned goods; delivery machines, namely, conveyors being machines and parts for all the aforementioned goods; sweeping, cleaning and washing machines namely, road sweeping machines, compressor cleaning machines, floor washing machines and parts for all the aforementioned goods

(3) Data processing equipment and computer, namely computer hardware, switches and parts of the aforementioned apparatus; software, namely, computer software for database management, software for computer aided design CAD, security software, downloadable computer software for application and database integration, software for maintenance and surveillance of construction sites, buildings, bridges, tunnels, railways and streets, virtual and augmented reality software, computer software for browsing, downloading, transmitting, visualizing, manipulating and displaying virtual and augmented reality media and software and parts of the aforementioned apparatus; computer software for setting up, configuring, operating or controlling mobile devices, mobile telephones, wearable devices, computers, computer peripherals, set top boxes, televisions, and audio and video players and parts of the aforementioned apparatus; scientific, measurement, optical, weighing, signalling and control devices and instruments, namely, electric control panels, distance sensors, velocity sensors, speed meters, electronic speed controllers, electronic analyzers for measuring, testing and detecting contaminants and environmental pollutants, electronic distance, height, volume and speed measuring equipment, electronic control devices for machines, plants, tunnels, bridges and roads and parts of the aforementioned apparatus; devices and instruments for conducting, switching, transforming, storing, regulating or controlling electricity namely, electrical conductors for electric motors, electrical conductors for transformers, current switches, power switches, electric transformers, power transformers and parts of the aforementioned apparatus; devices for recording, transmitting and reproducing sound, data and images, namely, sound amplifiers, audio speakers, audio-video receivers, video transmitters, video screens, computers, user interfaces for on-board motor vehicle computers and electronic devices, namely, electronic control panels, monitors, touchscreens, remote controls, docking stations, connectors, switches, and voice-activated controls, navigation apparatus for vehicles [on-board computers], biometric identification and authentication apparatus, virtual and augmented reality displays, goggles, controllers, and headsets, handheld computers, tablet computers, telecommunications apparatus and instruments, telephones, mobile telephones, smart phones, wireless communication devices for the transmission of voice, data, images, audio,

- video, and multimedia content, network communication apparatus, handheld digital electronic devices capable of providing access to the internet and for the sending, receiving, and storing telephone calls, electronic mail, and other digital data, wearable digital electronic devices capable of providing access to the internet, for sending, receiving and storing of telephone calls, electronic mail, and other digital data, electronic book readers and parts of the aforementioned apparatus; microprocessors and parts of the aforementioned apparatus; chips being integrated circuits and parts of the aforementioned apparatus; transmitting and receiving devices for electronic or optical signals, namely, optical receivers, optical transmitters and parts of the aforementioned apparatus; electrical sensors, in particular radio signal sensors, electrical sensors for measuring physical forces, states and magnet fields, and electric fields and temperature, optical sensors, gyroscopes and parts of the aforementioned apparatus; antennas, namely, radio antennas, satellite antennas, parabolic antennas, panel antennas, dish antennas and parts of the aforementioned apparatus; computer peripherals, namely, digital cameras, computer keyboards, modems, computer mouse, computer printers, computer scanners, computer speakers and parts of the aforementioned apparatus; interfaces [computer interface apparatus or programs], namely computer interface boards and parts of the aforementioned apparatus
- 12 (4) Vehicles and means of transport, namely, all-terrain vehicles, concrete mixing vehicles, off-road vehicles, transport robot vehicles for use in warehouses, sleds for transport purposes, motor cars for transport on land; parts and accessories for vehicles, namely, wheels for land vehicles, tyres, rubber tracks being parts of crawlers on construction machines, rubber tracks being parts of crawlers on mining machines
- 16 (5) Paper, paperboard (cardboard) and goods made from these materials, namely, bags of paper, storage containers made of paper, paper storage boxes, cardboard packaging, packaging materials of paper, packing paper, paper for wrapping and packaging; printed matter, namely, books, magazines, printed booklets, printed brochures, printed manuals, printed plans; bookbinding materials; photographs; stationery, namely, paper stationery, writing stationery, adhesive tapes for stationery purposes, planners for stationery use; adhesives for stationery or household purposes; artists' materials, namely, pens, pencils, pastels, charcoal; brushes, namely, paint brushes, artists' brushes, drawing brushes, writing brushes; typewriters and office requisites except furniture, namely, rubber bands, paper trimmer for office use, staple removers, staplers; instructional and teaching materials (except apparatus), namely, printed instruction materials in the field of building construction, especially for buildings, bridges, tunnels, airports, harbours, roads and railways and in the field of environment and health
- 19 (6) Non-metal building materials and construction elements, namely, stone veneer building material, logs used as building material, lumber, concrete, pitch, tar,

bitumen, asphalt, stone for building and construction, clay for use as building material, boards of wood and parts for all the aforementioned goods; non-metal doors, gates, windows and window covers, namely, wooden doors, plastic doors, non-metallic revolving doors, glass sliding doors, fence gates, not of metal, security gates, not of metal, wood windows, vinyl windows, fiberglass windows, wooden window shutters, vinyl window shutters, fiberglass window shutters, plastic window shutters and parts for all the aforementioned goods; non-metal structures and transportable structures, namely, portable stages, not of metal, portable traffic barriers, not of metal, greenhouses, transportable, not of metal, transportable buildings, namely sheds made of wood and parts for all the aforementioned goods; unprocessed and partially processed materials not adapted to a specific use, namely pitch, tar, bitumen and asphalt, building stone, natural stone, rock crystal for use as building materials, clay for use as building material, non-metallic minerals for building, non-metallic minerals for construction, balsa wood, wooden structural beams, woodworking blanks and parts for all the aforementioned goods; statues and works of art, namely, statues in stone, concrete and marble, statuettes in stone, concrete and marble, figurines of stone, decorative spheres of stone and parts for all the aforementioned goods

#### **Services (Nice class & Statement)**

- 35 (1) Advertising, namely, advertising the goods and services of others, advertising planning services, advertising research, advertising services, especially presentation of companies on the Internet and other media, the aforementioned services in particular within the framework of public private partnership projects; business management, the aforementioned services in particular within the framework of public private partnership projects; company administration, namely business administration services, the aforementioned services in particular within the framework of public private partnership projects; office work, namely, office functions in the nature of filing documents, office functions, namely, secretarial and clerical services, reception services for visitors [office functions], the aforementioned services in particular within the framework of public private partnership projects; merchandising, namely, inventorying merchandise, business merchandising display services, product merchandising for others, the aforementioned services in particular within the framework of public private partnership projects; sales promotion for third parties, namely, advisory services relating to sales promotion, consultancy relating to sales promotions, developing promotional campaigns for others, sales promotions for others by means of website information and public relations campaigns, search engine optimization for sales promotion, promoting the sale of services through a customer loyalty program, sales promotion, namely providing advantage programs for customers, the aforementioned services in particular within the framework

of public private partnership projects; mediation of commercial and economic contacts, including via the Internet, the aforementioned services in particular within the framework of public private partnership projects; mediation of contracts for third parties concerning the purchase and sale of goods and the use of services, the aforementioned services in particular within the framework of public private partnership projects; organisation of advertising events, namely, organization of exhibitions for commercial and advertising purposes of a variety of goods for others, organization of trade fairs for commercial and advertising purposes of a variety of goods for others, the aforementioned services in particular within the framework of public private partnership projects; presentation of companies on the Internet and other media, namely, on-line advertising for others on computer networks, advertising the goods and services of others via social media, the aforementioned services in particular within the framework of public private partnership projects; management, advice on management issues, advice on the organisation and management of companies, the aforementioned services in particular within the framework of public private partnership projects; business management and organisational advice, the aforementioned services in particular within the framework of public private partnership projects; carrying out business cost-benefit, market and marketing analyses for companies and scientific institutions, namely, analysis of market research data and statistics, interpretation of market research data, interpretation of market study data, statistical evaluations of marketing data, statistical evaluation of market research data, the aforementioned services in particular within the framework of public private partnership projects; business management advice on drawing up business plans for third parties and drawing up business plans for third parties, the aforementioned services in particular within the framework of public private partnership projects; administration of business plan competitions for advertising purposes, the aforementioned services in particular within the framework of public private partnership projects; advice on the organisation of business start-ups, the aforementioned services in particular within the framework of public private partnership projects; exploitation of business ideas, namely, business strategy development services, developing of marketing strategies for others, providing assistance in development of business strategies and creative ideation, the aforementioned services in particular within the framework of public private partnership projects; business administration, management consulting, the aforementioned services in particular within the framework of public private partnership projects; personnel management consulting, the aforementioned services in particular within the framework of public private partnership projects; franchising, namely the transfer of economic know-how, the aforementioned services in particular within the framework of public private partnership projects; collection of market research, company and product information of all kinds in computer

databases, the aforementioned services in particular within the framework of public private partnership projects; compilation and systematisation of data in computer databases, the aforementioned services in particular within the framework of public private partnership projects; updating and maintenance of data in computer databases, the aforementioned services in particular within the framework of public private partnership projects; commercial management of the licensing of goods and services for third parties, the aforementioned services in particular within the framework of public private partnership projects; services of an advertising agency, the aforementioned services in particular within the framework of public private partnership projects; marketing for third parties in digital networks, the aforementioned services in particular within the framework of public private partnership projects; market research, the aforementioned services in particular within the framework of public private partnership projects; public relations, the aforementioned services in particular within the framework of public private partnership projects; sponsorship in the form of advertising, namely promotion of goods and services of others through sponsorship of sports events, the aforementioned services in particular within the framework of public private partnership projects; representation of economic interests of third parties with respect to political decision-makers and other persons in the nature of commercial lobbying services, the aforementioned services in particular within the framework of public private partnership projects; commercial and business management of transport infrastructure facilities, buildings and public infrastructure facilities as well as energy generation facilities, the aforementioned services in particular within the framework of public private partnership projects; business management advice and business organisational advice relating to preparation and supervision for construction projects and real estate, in particular for the construction, equipping, use, management and operation of buildings and real estate of all kinds; business and organisational planning and development of construction projects; development of utilisation concepts for real estate from a business perspective; services of a business economist for project management and project controlling; mediation, conclusion and execution of contracts for the sale of immovable property and real estate; business and organisational consulting in the field of tendering and awarding construction contracts; business planning; business consulting in the field of accounting; business and organisational consulting in the field of landfill management; procurement services for third parties, namely procurement services for others relating to office requisites; company management; brokerage of trade and economic contacts, namely provision of commercial and business contact information; brokerage of trade transactions for third parties; business organisation consulting on energy consumption and energy saving; retail and wholesale services with construction materials, building materials, construction machinery and

- 36 construction equipment
- (2) Finance, namely financial investment brokerage, the above-mentioned services, in particular in connection with public-private partnership projects; real estate, namely real estate brokerage services, the above-mentioned services, in particular in connection with public-private partnership projects; mediation, management, and brokerage of investments in infrastructure facilities, public infrastructure buildings and facilities as well as in energy generation facilities, the above-mentioned services, in particular in connection with public-private partnership projects; real estate management; real estate marketing services for others; financial consulting, preparation and support for construction projects and real estate, in particular for the construction, fit-out, use, management and operation of buildings and real estate of all kinds; financial planning services in the field of construction project planning and development; brokerage, leasing, letting, management and operation of real estate; asset management for construction projects and real estate; development of utilisation concepts for real estate in financial terms; financial consulting in the field of landfill operations; financial consulting, namely, financial analysis consultation services, financial risk management consultation, consulting services in the field of real estate; insurance services; brokerage and financial administration of insurance; insurance consulting; financial consulting on the purchase or sale of companies
- 37 (3) Construction, namely, building construction, construction site preparation, general building contractor services, the above-mentioned services in particular in connection with public-private partnership projects; repair of buildings, bridges, roads and tunnels, the above-mentioned services in particular in connection with public-private partnership projects; installation works, namely, installation of metalworking machines, machinery installation, the above-mentioned services in particular in connection with public-private partnership projects; construction of traffic infrastructure facilities as well as buildings and public infrastructure facilities and energy generation facilities, the above-mentioned services in particular in connection with public-private partnership projects; construction of traffic infrastructure facilities in the nature of roads, bridges, buildings and public infrastructure facilities and energy generation facilities; construction of buildings; structural and civil engineering, including tunnelling; road construction; shipping port construction; construction and upgrading of waterways; construction of airports; construction of squares; construction of track-guided routes; development, namely construction of buildings on developed and undeveloped properties; construction, maintenance, repair, servicing, renovation and cleaning of real estate, in particular of buildings; maintenance, repair, servicing and cleaning of real estate equipment and facilities; execution of construction projects, namely construction project management services; conversion of real estate in the nature of real estate development services; construction of facilities for drinking water supply, sewage disposal and

sewage treatment; construction of energy production generation of landfills; management of construction works, namely project management in the field of building and infrastructure construction; rental of construction machinery; information on construction matters, namely providing information on building construction and repair; maintenance, repair and servicing of industrial facilities; equipping and supplying construction sites; services provided by a developer, namely execution of construction projects, in particular construction of bridges; construction work on bridges; operation and chartering of special ships for construction projects; installation and maintenance of hardware for network systems; demolition work; hiring of tools, construction machinery and equipment for construction and demolition work; extraction of natural resources, namely mining extraction services, extraction of natural oil, gas, coal, minerals, water and stones; hire, rental and leasing of goods in connection with the supply of the above-mentioned services, namely, rental of construction equipment, leasing of construction equipment, rental of hand tools and power tools, leasing of heavy equipment

38

(4) Telecommunications, in particular provision of access to and electronic transmission of television, radio, telecommunications, data and information signals via wireless and/or wired digital and analogue networks, also in online and offline operation in the form of interactive electronic media services and by means of computers, including the gathering and delivery of news via satellite, radio, fax, telex, telephone, telegram and email (as part of the service of a press agency), in the nature of radio and television broadcasting, providing access to a global computer network, providing access to a web, mail and news portal, providing access to databases, providing virtual data centre access, news agency services, the above-mentioned services also for transmission via the Internet; provision of access to network-based telecommunications services, namely internet and intranet, for the transmission and use of documents and services to be provided by means of the telecommunications network, namely electronic transmission and amplification and/or reproduction of information signals, as well as communication between the subscriber facilities operated in the public network, including electronic transmission of faxes, texts and graphics for display on visual display units, images and information for remote display, telemetry, remote switching and remote adjustment between these terminals, the above-mentioned services also for transmission via the Internet; electronic transmission of text messages and email for printing and for electronic use by the customer, the above-mentioned services also for transmission via the Internet; services of an online provider, namely internet service provider services for provision of access to information and its transmission as well as transmission of texts, drawings and images about goods and services as well as electronic transmission and transmission services for data, voice and video signals and telephone services, mobile radio services, value-added services

(telecommunications services), email services, call forwarding and conference calls, the above-mentioned services also for transmission via the Internet; collection of press releases in the nature of news agency services, the above-mentioned services also for transmission via the Internet; computer-aided transmission of messages and images, namely transmission of data, images and messages over the internet, the above-mentioned services also for transmission via the Internet; e-mail services, the above-mentioned services also for transmission via the Internet; provision of access to a global computer network in the nature of an address information centre, an electronic marketplace, remote security service centre and trust centre on computer networks, the above-mentioned services also for transmission via the Internet; provision of access to the Internet to obtain texts, graphics, documents, databases and computer programs, the above-mentioned services also for transmission via the Internet; provision of chat lines and forums, namely providing chat lines utilising the internet, providing access to internet forums, the above-mentioned services also for transmission via the Internet; broadcasting and electronic transmission of radio and television programs as well as electronic transmission of chargeable services provided via telecommunications networks, namely video on demand transmission of programs, near video on demand transmission of programs, providing access to online information services in the nature of databases, providing access to a web portal featuring home shopping services, internet video telephony services, teleworking services in the nature of video conferencing services, tele-learning services in the nature of web conferencing services, tele-teaching services in the nature of video conferencing services, telemedicine services in the nature of teleconferencing services, providing access to a website featuring online video games, and interactive television broadcasting and computer services in the nature of streaming audio and video content via global computer networks; rental of equipment for telecommunications and for the transmission or retrieval of data and information, namely fax machines, modems, telephones and computer networking equipment; rental of video conferencing equipment, in particular for remote data transmission and retrieval, rental of telephone and telephone network equipment; services provided by Internet and Internet providers, namely the provision of access to the Internet featuring software in data networks for Internet access; the placement of websites on the Internet or on an intranet for third parties, namely creation of internet web sites for others, hosting of web sites; the operation of telecommunications facilities, in particular communication centres, namely telephone hotlines, email hotlines and fax hotlines; telecommunications and data transmission services, namely operating a local-area network (LAN), operating a wide-area network (WAN), operating a telephone network, and data transmission services between networked computer systems, namely provision of electronic data interchange (EDI) services; telecommunications services, in particular for the

operation of telecommunications equipment for the electronic transmission of information and data, namely operation of radio broadcasting equipment, operation of television broadcasting equipment, operation of a cellular phone network; electronic communications services by telephone for the transmission of information through remote indication, telemetry, remote switching and remote adjustment (telecontrol information) between terminals operated as telecontrol control centres and a specific group of terminals operated as telecontrol control centres (Temex service); electronic mail services for the transmission of texts and images from news agencies to newspaper companies, broadcasters and public authorities (transmission service for press releases); transmission of messages for the purposes of the alerting service (transmission services for the alerting service), namely providing e-mail notification alerts via the internet; paging through radio, telephone or other means of electronic communication, including the transmission of messages from a given sender from transmitting radio stations to receivers (radio messages to one or more receivers) and the transmission of maritime safety messages via coastal radio stations (maritime radio service); the rental of access times to databases containing data, graphics, audio-visual and multimedia information and computer programs for the transmission and use of documents, and the rental of access times to databases

39 (5) Supplying consumers with electricity, heat, gas or water, namely public utility services in the form of electricity distribution, utility services transmission of electricity and natural gas, utility transmission services of electricity and electric power, public utility services in the form of natural gas distribution, public utility services in the form of water distribution; distribution of energy, namely distribution of electrical energy to residential and commercial users; storing waste in landfills; operating landfills; transport facilities, namely air transportation of goods, railway transport, transportation of goods by ship, transport of goods by land vehicles, airport services, road services, namely, transportation and delivery services by road, harbor services, namely, loading and unloading of ships

40 (6) Material processing, namely stripping the surfaces of concrete, recycling of waste stone grinding, 3D printing of samples for others, decontamination of hazardous materials, crude oil processing, production of energy, providing information on the aforesaid material processing services, soldering, air purification, air deodorising metalworking, metal casting services, waste and trash recycling, metal plating, abrasive polishing of metal surfaces by grinding, refining of the precious metals, optical glass grinding, forging in the nature of blacksmithing, welding services, sorting of waste and recyclable materials, generation of power, waste and trash incineration, waste and trash destruction, water treating; preparation of materials to order (for third parties), namely preparing customized ready-mix concrete to the specification of others; remediation of contaminated soils;

recycling of residual building materials for new constructions

41

(7) Education, namely arranging and conducting of business seminars; education and training, namely education and training in the field of business management; entertainment in the nature of event planning services, entertainment services in the nature of organizing social entertainment events; organizing sporting and cultural activities in the nature of community festivals; services of a publishing house (excluding printing), namely electronic desktop publishing, online electronic publishing of books and periodicals, publishing of audio books, publishing of electronic publications; production of published products and printed matter and music products as well as audio and video carriers of all kinds in electronic form, also on the Internet, namely audio production services, video production services; publication of magazines and books in electronic form, also on the Internet; provision of electronic publications (not downloadable), namely providing online electronic publications in the form of publishing of electronic newsletters, providing online non-downloadable digital publications in the field of science via the internet, providing online non-downloadable digital publications in the field of culture via the internet; online publication of electronic books and magazines; compilation and production of film, television, radio and multimedia programmes or broadcasts; organisation and conduct of training courses, seminars, workshops, symposia, congresses and conferences in the field of business management; organisation of exhibitions for educational purposes in the field of business management; operation of infrastructure facilities, in particular airports and ports, namely provision of airport facilities for aviation, port services being berthing, mooring and storage; operation of traffic routes and facilities, in particular operating toll roads, operation of bridges, railway transport; operation of power plants, namely operation of electricity and steam plants, operation of hydroelectric power plants, operation of solar power plants, operation of wind power plants; operation of electrical energy generation plants; operation of geothermal electricity generation plants; operation of educational facilities, in particular schools and universities, namely operation of a correspondence school, operation of an educational institution at the university level and high school level; operation of health care facilities, in particular hospitals, namely administrative management of hospitals, hospital business management, financial management services relating to hospitals; operation of sports and leisure facilities and buildings, namely providing sports arena facilities, providing fitness and exercise facilities, provision of gymnasium facilities; operation of cultural facilities and buildings, namely provision of museum and theatre facilities, provision of facilities for artists' studios and exhibits; operation of passenger and freight transport facilities, namely operation of docks, operation of airports, harbours and train stations

42

(8) Scientific and technological services and research and related design services, namely consulting in the field of

structural engineering, research in the field of building construction, research and design in the field of computers; scientific and industrial research in the field of mechanical engineering, electrical engineering, civil engineering, building construction materials, computer software, computer hardware; conduct of scientific studies, namely testing of computer hardware and software; scientific and technical advisory services, namely advisory services relating to industrial engineering, advisory services relating to material testing, advice relating to the design of computer systems; provision of technical and scientific opinions, namely geological surveying, land surveying, technical surveying; technical and scientific project planning, namely construction planning, drafting of plans for road projects, land use planning services, planning of buildings and infrastructure systems for buildings, urban planning, planning of buildings, roads, bridges, railways, harbours, airports, tunnels and infrastructure systems for buildings, roads, bridges, railways, harbours, airports, tunnels, namely, technical construction project planning and development; carrying out of technical measurements, namely cartographic or thermographic measurement services by drone; development of measurement and testing methods in the field of structural engineering; materials testing; quality testing, namely consumer product safety testing services, testing of new products for others, quality control testing services for industrial machinery; services of a technical measurement and testing laboratory, namely laboratory testing of materials; technical development and research services relating to new products for third parties; services of a programmer; design and development of computer hardware and software; maintenance and installation of software; research in databases and on the Internet for science and research; technical consulting in the field of energy saving; research and development work in the fields of materials technology and component behaviour, production technology and manufacturing technology, information and communication technology, microelectronics and microsystems technology, sensor systems and testing technology, process engineering, energy and construction technology and environmental and health research; technical-economic studies and information dissemination, in particular specialist information for the fields of civil engineering and regional planning; scientific-technical trend analyses; award of certification seals in the nature of providing certification of quality assurance in the construction industry; technical quality assurance and product development, technical testing of products and plants and preparation of technical quality inspection reports, namely testing, analysis and evaluation of the services of others to determine conformity with certification standards, product development services, preparation of reports relating to technical project studies for construction projects; weak point analysis, technical consulting in the development of new products; construction and design planning, namely architectural design services; construction and design consulting, namely architectural and construction

consultancy services; services of an architect; technical preparation, support and advice on construction projects; services of a civil engineer and an industrial engineer for project management, project development and project controlling; development of utilisation concepts for real estate in technical terms in the field of building construction; planning and technical consulting on the use, management, exploitation and operation of real estate; construction planning and architectural consulting for the fit-out and construction of real estate; technical construction project planning and development in the nature of bridge engineering, architectural project management, construction project engineering, civil engineering design relating to building construction, design of building interiors and exteriors, planning of buildings and infrastructure systems for buildings, design of tunnels and underground structures; development of computer software, webpages, and Internet search engines; installation and maintenance of software; technical consulting for landfill management; technical consulting for the development of real estate; calculations, investigations, equilibration and data management for energy consumption, electricity consumption, gas consumption, water consumption and heat consumption; consulting in the field of energy consumption and energy saving; analysis, consulting and design services in the field of occupational safety, health and environmental protection; architectural services of a property developer, namely technical preparation of building projects

44 (9) Agricultural services, namely compost spreading, horticulture of crops, harvesting crops for others, livestock arming services, water services, namely aquaculture services

45 (10) Consulting in the field of safety, namely consulting in the field of workplace safety, personal security consultation, safety consultation in the field of construction site inspection and assessment, consultation services in the field of the safety needs of commercial and industrial companies; implementation of safety and monitoring measures in the field of occupational safety, health and environmental protection

**Claims**

Priority Filing Date: September 12, 2018, Country or Office: GERMANY, Application No. 30 2018 110 157.7 in association with the same kind of goods and in association with the same kind of services Proposed Use in CANADA
