SYMPHEOS

Goods (Nice class & Statement)

- | | |
|---|---|
| 1 | (1) Control preparations, namely, calibrating fluids for medical diagnostic instruments; control preparations, namely, calibrating fluids for laboratory instruments used for in vitro diagnostic testing and analysis. |
| 5 | (2) Reagents for medical diagnosis; medical diagnostic reagents; diagnostic preparations for medical purposes namely, for medical laboratory use and for medical research; medical diagnostic test kits comprising reagents and assays for analysis and identification of nucleic acid sequences, nucleic acids, genetic materials, infectious agents and pathogens. |
| 9 | (3)) Research laboratory analyzers, namely, blood and biological sample chemistry analyzers and parts thereof for measuring, testing and analyzing blood, bodily fluids and tissue; Immunoassay analyzers; automated clinical molecular laboratory instruments, namely, sequencers, spectrometers, sensors and computers for scientific research purposes; laboratory sample extraction instruments; molecular diagnostic systems comprised of sequencers, spectrometers, sensors and computers, for analysis of nucleic acid sequences, nucleic acids, genetic materials, infectious agents and pathogens; laboratory instruments for microbial screening and identification; computer software and hardware for identification and analysis of nucleic acid sequences, nucleic acids for pathogen identity, drug resistance characteristics and forensic profiles; laboratory apparatus, namely, molecular diagnostic sensors for analysis of nucleic acid sequences, nucleic acids, genetic materials, infectious agents and pathogens; computer software for front-end processing, instrument control, data analysis and reporting for molecular diagnostic instruments; computer hardware and software for use in the field of in vitro diagnostics, namely, for remote monitoring of in vitro diagnostic instruments; electronic publications, namely, instruction sheets and manuals for in vitro diagnostic instruments, laboratory automation systems, and related software; data management software for hematology analyzers, clinical chemistry analyzers, immunoassay analyzers and blood screening instruments; computer software and hardware for remote monitoring of diagnostic instruments, namely, hematology analyzers, clinical chemistry analyzers, immunoassay analyzers and blood screening instruments; computer software and hardware for managing interface between in vitro diagnostic laboratory instruments; computer software and hardware for managing in vitro diagnostic laboratory workflow; computer software and hardware for the operation of a laboratory information management system; computer software and hardware for |

monitoring in vitro diagnostic instruments; computer software and hardware for monitoring laboratory diagnostic instruments; computer software and hardware for troubleshooting regarding in vitro diagnostic instruments; computer software and hardware for troubleshooting regarding laboratory diagnostic instruments; computer software for processing diagnostic medical testing data; software for use in in vitro diagnostic testing; hardware for use in in vitro diagnostic testing; laboratory instruments for in vitro diagnostic testing and analysis, namely, research and commercial laboratory analyzers for measuring, testing and analyzing blood, bodily fluids and tissue; data management and laboratory automation systems comprised of computers and computer programs for use in the field of medical diagnostics

- 10 (4) Laboratory diagnostic instruments, namely, analyzers for in vitro diagnostic testing and analysis for medical purposes; hematology analyzers for medical diagnostic use; clinical chemistry analyzers for medical use to analyze blood and other bodily fluids and tissue; blood screening instruments for medical use

Services (Nice class & Statement)

- 41 (1) Providing online non-downloadable electronic publications, namely, instruction sheets and manuals for in vitro diagnostic instruments, laboratory automation systems, and related software
- 42 (2) Providing technical support services regarding in vitro diagnostic laboratory instruments, laboratory automation systems, and related software and hardware, namely, troubleshooting in the nature of diagnosing problems with medical equipment; providing technical support regarding laboratory software, namely, troubleshooting of problems in relation to laboratory software in the field of in vitro diagnostics; providing remote electronic troubleshooting services in the nature of diagnosing problems with medical diagnostic instruments and software for laboratories in the field of in vitro diagnostics; providing operational monitoring services for laboratory equipment in the field of in vitro diagnostics; remote monitoring of diagnostic laboratory systems; providing remote electronic monitoring of in vitro diagnostic equipment and laboratory automation systems; platform as a service (PAAS) featuring computer software platform for laboratory and diagnostic equipment information management, monitoring and analysis in the field of in vitro diagnostics; software as a service (SAAS) services featuring software for use in managing data and information in the field of in vitro diagnostics

Claims

Proposed Use in CANADA on goods and on services (2)
