ORBICA

Goods (Nice class & Statement)

9 (1) Software, including mobile application software, for data visualisation; software, including mobile application software, for animating data visualisation; software, including mobile application software, for data capture, transmission, storage and indexing; software, including mobile application software, for matching, transforming, sampling, partitioning, verifying and reporting data; software, including mobile application software, for searching, mining, collecting, analysing, viewing, processing, storing, managing, monitoring, aggregating and modelling data; software, including mobile application software, for searching, exploring, identifying, viewing, analysing, processing, storing, managing, monitoring, aggregating and modelling patterns, trends and behaviour; software, including mobile application software, for data analysis; software, including mobile application software, for receiving, collecting, storing, viewing, sharing, monitoring, managing, processing, configuring, analysing, sanitising, cleansing, anonymising, de-anonymising, encrypting, decrypting, masking, hashing, filtering, redacting, tokenising, transmitting, sharing and validating data; software, including mobile application software, for checking the integrity of data; software, including mobile application software, for protecting the quality, integrity and security of data and information, in particular when transmitted between networks; software, including mobile application software, for database management; software, including mobile application software, for predictive modelling or predictive analysis; software, including mobile application software, for complex event processing; software development tools; data collection apparatus; electronic databases recorded on computer media; database software, including mobile application software; podcasts; webcasts; electronic publications, downloadable; global positioning system [GPS] apparatus and software; on-line electronic publications and instruction manuals downloadable from the internet; instruction manuals in electronic form; parts and fittings included in this class for all the aforementioned goods.

Services (Nice class & Statement)

35 (1) Compilation and systemisation of information into computer databases; updating and maintaining data in databases; computerised file management; compilation of statistics; data processing; data retrieval services; data management; data processing; systemisation of information into databases; updating and maintaining data in databases; collection of data; collation of data; collation

of data for others; compilation of data; compilation of data for others; compilation and exploitation of statistical data; computerised database management; business data analysis; provision of business data; online data processing services; data retrieval services; business data analysis services; promotional services; advertising and marketing services; procurement of services for others (purchasing goods and services for others); compilation of statistics; compilation and provision of online directories; business management and administration services; arranging and conducting trade shows; public relations; office functions; compilation and provision of online directories; publication and dissemination of publicity texts; copying of documents; business advisory services in the field of transportation logistics and organization of facilities, resources and third party service providers; business advisory services; business consulting services; business consulting services in the field of delivering web-based knowledge; wholesaling and retailing of data acquisition, analysis and visualisation software and hardware; marketing, advertising and promotional services; business information; business data analysis; market research services; business organisational consulting in geographical, geospatial and spatial information software and systems, web and mobile application software and systems, and database software and systems; business organisational consulting in geographical, geospatial and spatial information design, web and mobile application design and database design; provision of information, advisory and consultancy services in relation to all the aforementioned services; all of the foregoing services including but not limited to the provision of such services electronically, by means of computers, software, computer networks or the Internet (including via online).

41

(2) Training services; education; arranging and conducting of workshops [training]; arranging and conducting seminars, exhibitions and conferences; organisation of training courses; provision of training courses; provision of training facilities; practical training (demonstration); mentoring (education and training); commercial training services; computer based training; arranging and conducting of workshops, exhibitions and seminars for training purposes; educational instruction; publishing services; publication of on-line electronic publications (not downloadable); publishing, including electronic publishing of texts namely promotional material, guides, booklets, brochures, pamphlets, books, directories, publications, newspapers, magazines, and columns; digital music, videos, animation and television clips (not downloadable) provided from the Internet; providing online electronic publications; blog services (online publication of journals) relating to education and training; providing non-downloadable audio-visual and multimedia audio-visual content in the field of geographical, geospatial and spatial information and systems; blog services (online publication of journals) relating to geographical, geospatial and spatial information and systems; providing non-downloadable audio-visual and multimedia audio-visual content in the

field of education and training; publication of electronic journals and web logs; weblog (blog) services being the online publication of journals or diaries; arranging and conducting of conferences; providing on-line electronic publications, not downloadable; providing on-line videos, not downloadable; publication of texts, other than publicity texts; writing of texts; provision of information, advisory and consultancy services in relation to all the aforementioned services; all of the foregoing services including but not limited to the provision of such services electronically, by means of computers, software, computer networks or the Internet (including via online).

42

(3) Technological services and research and design relating thereto; software as a service (SaaS) for data visualisation; providing temporary use of online non-downloadable software, including mobile application software, for animating data visualisation; software as a service (SaaS) for data capture, transmission, storage and indexing; software as a service (SaaS) for matching, transforming, sampling, partitioning, verifying and reporting data; software as a service (SaaS) for searching, mining, collecting, analysing, viewing, processing, storing, managing, monitoring, aggregating and modelling data; software as a service (SaaS) for searching, exploring, identifying, viewing, analysing, processing, storing, managing, monitoring, aggregating and modelling patterns, trends and behaviour; software as a service (SaaS) for data analysis; software as a service (SaaS) for database management; software as a service (SaaS) for receiving, collecting, storing, viewing, sharing, monitoring, managing, processing, configuring, analysing, sanitising, cleansing, anonymising, de-anonymising, encrypting, decrypting, masking, hashing, filtering, redacting, tokenising, transmitting, sharing and validating data; software as a service (SaaS) for checking the integrity of data; software as a service (SaaS) for protecting the quality, integrity and security of data and information, in particular when transmitted between networks; software as a service (SaaS) for database management; software as a service (SaaS) for predictive modelling or predictive analysis; software as a service (SaaS) for complex event processing; providing online non-downloadable software for receiving, collecting, storing, viewing, sharing, monitoring, managing, processing, configuring, analysing, sanitising, cleansing, anonymising, de-anonymising, encrypting, decrypting, masking, hashing, filtering, redacting, tokenising, transmitting, sharing and validating data; providing online non-downloadable software for visualising data; scientific and technological services and research and design relating thereto; application service provider, featuring application programming interface (API) software for allowing data retrieval, upload, access, management, tracking, and analyzing of user data; consultation services and technical support services, namely, diagnosing and troubleshooting for developing computer systems, databases and applications; computer services, namely, hosting electronic facilities for others for organizing and conducting interactive discussions via communication networks; providing technical information

about computer and communication networks from searchable indexes and databases of information, including text, electronic documents, databases, graphics and audio visual material; application service provider (ASP) services, namely, hosting software applications of others; design and development of webpages; hosting webpages for others; software development; software programming services; back-up (copying) of computer data; off-site data backup; electronic data storage; cloud computing authentication services; forensic analysis, reverse engineering, recovery, conversion, compression and migration of computer data; artificial intelligence and neural network modelling; design and development of webpages; computer services, namely, creating virtual communities for registered users to organize groups and events, participate in discussions, and engage in social, business and community networking; advisory services in geographical, geospatial and spatial information software and systems, web and mobile application software and systems, and database software and systems; advisory services in geographical, geospatial and spatial information design, web and mobile application design and database design; design and development of geographical, geospatial and spatial information software and information systems; development of web and mobile application design, software and systems; development of database design, software and systems; cross-platform conversion of digital content into other forms of digital content; hosting of databases; hosting application software for creating searchable databases of information and data; software development in the field of mobile applications; design and development of software; technological consulting services relating to data, data visualisation and data analytics; technology support services, namely, help desk services; technical support services, namely, troubleshooting of software problems; hosting a website that gives computer users the ability to transmit, cache, receive, download, stream, broadcast, display, format, transfer and share photos, videos, text, data, images and other electronic works and to store, manage, track, analyze and report data; all of the foregoing services including but not limited to the provision of such services electronically, by means of computers, software, computer networks or the Internet (including via online).
