	navigation apparatus for vehicles in the form of on-board computers; Cell phones; Radios; directional compasses, satellite navigation systems, satellite navigation devices; telematic apparatus, namely, vehicle locator and recovery device programmed to use global positioning systems [GPS] and cellular telecommunications; apparatus for recording, transmission and reproduction of sound and images, namely, headphones, loudspeakers, loudspeaker cabinets, CD players and DVD players, video telephones, phototelegraphy apparatus, namely, computer scanners, computer printers, fax machines, telecopiers, and photocopiers; video projection apparatus, namely, cameras; encoded integrated circuit cards, coded telephone cards; data processing equipment, namely, computers, electronic agendas, computer monitors, computer hardware for data processing, peripherals adapted for use with computers, namely, keyboards and mouses, downloadable and recorded computer programs for use in autonomous driving of vehicles, namely, driver systems for autonomous vehicles, downloadable and recorded computer programs for vehicle GPS navigation systems of autonomous vehicles, downloadable and recorded computer programs for use in autonomous control of vehicles, namely, motion control software for autonomous vehicles; Downloadable and recorded computer software, and downloadable and recorded application software, all for vehicle device integration, autonomous driving, monitoring, operating, controlling, and adjusting vehicle motion and energy applications; Computer software for coordinating transportation services, namely, software for the automated scheduling and dispatch of motorized vehicles; Software for providing information about parking areas for vehicles; Software, computer hardware, and supporting infrastructure in the nature of network hardware to provide wireless connectivity within the vehicle, between vehicles, and with external entities, namely headphones, loudspeakers, backend computers; Software for providing information about vehicle battery condition, charge status, charge time, power status and full charge status; software for the transmission of text, audio and video recordings, images, audio and video signals, position, movement and vehicle data between vehicles, parts of land vehicle, data centres, phones, personal computers and other electronic and digital devices, namely, mobile phones, tablets and handheld computers; Software for the transmission of information about roads, vehicles, traffic and driving; Driver assistance systems for motor vehicle
12	(2) Vehicles and conveyances, namely cars, trucks, vans and electric cars; vehicles for locomotion by land, air, water and rail and their structural parts namely, land vehicles in the nature of automobiles, boats, airplanes; Driverless cars [autonomous cars]; Power trains, comprised of engines and motors, for land vehicles; propulsion mechanisms for land vehicles, namely, internal combustion engines for motor vehicles; Chassis for vehicles; Vehicle bodies; Vehicle couplings; Shock absorbers for vehicles; Shock absorbing springs for vehicles; Pneumatic tyres; Tyres for vehicle wheels; Rims

for vehicle wheels; Solid rubber tyres for vehicle wheels; Vehicle wheels; Hubs for vehicle wheels; Lug nuts for vehicle wheels; Inner tubes for pneumatic tyres; Casings for pneumatic tyres; Tyre mousse inserts; Repair outfits for inner tubes, adhesive rubber patches for repairing inner tubes; Spikes for tyres; Tire snow chains [land vehicle parts]; Non-skid devices for vehicle tyres; Vehicle seats; Rearview mirrors; Head-rests for vehicle seats; Security systems for vehicles [other than locks], Anti-theft devices for vehicles; Cigar lighters for automobiles; automotive vehicles, namely electric vehicles; Cars; Robotic cars; Motor racing cars; Vans [vehicles]; Trailers and semi-trailers for vehicles; Trailer hitches for vehicles; Omnibuses; Motorcycles; Mopeds; Bicycles; Electric bicycles; Camera drones; Helicams; cable car transport; carts being motorized land vehicles; Aircrafts; Boats, Ships; Locomotives; Motor buses; Caravans; Tractors; Two-wheeled vehicles, namely, bicycles and motorcycles, motor scooters; Self-balancing boards; Self-balancing electric unicycles; Self-balancing one-wheeled electric scooters; Chairlifts, cableways; Wheelchairs; Clips adapted for fastening automobile parts to automobile bodies; Tumbler holders adapted for use in motor vehicles; Parts and accessories for all the above mentioned goods

Services **(Nice class & Statement)**

37	(1) Modification, repair, disassembly, maintenance and care of vehicles; Installation, maintenance and repair of computer hardware in the field of self-propelled vehicle technology; Vehicle breakdown repair services; Custom conversion of motor vehicle bodies, chassis, motors and engines (tuning); Vehicle painting; Vehicle polishing; Anti-rust treatment for vehicles; Vehicle maintenance; Vehicle cleaning; Tyre repair; providing information in the field of vehicle repair; Burglar alarm installation and repair; Consultancy and information in relation to the aforesaid services
38	(2) Providing alerts via the internet about vehicle battery condition, charge status, charge time, power status and full charge status (transmission services); Providing telecommunication connections to the internet to search and locate and provide status messages on charging stations for electric vehicles and petrol stations; electronic transmission of text, audio and video recordings, image, audio and video signals, position, movement and data between land vehicles, land vehicle components, data centers, phones, personal computers and other electronic and digital devices, namely, mobile phones, tablets and handheld computers; computer aided transmission of signals for vehicle locking mechanism; transfer by telecommunication of road, vehicle, traffic and driving related information; Telecommunications, namely call forwarding services, SMS messaging and push notifications to local third-party motorised vehicle operators in the vicinity of the caller using mobile phones; Transmission of information, namely, vehicle infotainment systems, vehicle diagnostics, network (social) connectivity,

	real-time navigation and traffic reports, and voice-interactive personal information management on network based systems or on-board consumer electronic devices; telecommunications, namely, call forwarding services, electronic message transmission being SMS messaging and push notifications for use by local third-party motorized vehicle operators in the vicinity of the caller using mobile phones; Providing access to data and application programmes for the brokerage of parking areas for vehicles; telecommunications by means of platforms and portals on the internet, namely providing access to internet platforms and providing access to mobile Internet portals, providing access to information on the internet, electronic exchange of messages and vehicle information via chat lines, chat rooms and internet forums, Transmission of electronic mail, Rental of telecommunication equipment, Transmission of electronic mail; providing services information in the field of telecommunication; Providing user access to global computer networks; Providing telecommunications connections to a global computer network; Providing user access to computer programmes in data networks; Providing internet chatrooms; Providing video conferencing services; Wireless mobile phone services; Computer-aided transmission of messages and images; Paging services [radio, telephone or other means of electronic communication]; Satellite transmission; telephone communication; Telephone exchange services; digital text messaging; Rental of telecommunication facilities; Rental of message sending apparatus; Rental of access time to global computer networks; Providing access to databases; telematic in-vehicle communication service providing wireless vehicle navigation and tracking; Consultancy and information in relation to the aforesaid services
39	(3) Transport of goods and people by air, rail, ship, bus, and truck; packaging of goods, providing storage facilities for others; Travel arrangement; Towing; Taxi services, Car sharing services; Vehicle parking; Information about parking areas for vehicles; Rental of parking areas for vehicles; transportation of goods by motor vehicle, transportation logistics services, namely, arranging the transportation of goods for others; Rental of vehicles, in particular cars; Passenger transport, in particular by bus; Freight brokerage; delivery of goods by post, parcel delivery; Traffic information; Controlling of fleet vehicles using navigational and positioning apparatus; Providing information in the field of freight transportation services and bookings for transportation for passengers via a website
42	(4) Providing temporary use of online non-downloadable software for providing transportation services for vehicles, bookings for transportation services for vehicles and for dispatching motorized vehicles to customers; IT services, namely, development, programming and implementation of software, development of computer hardware, cloud computing website hosting services, software as a service (SaaS) namely software for electronic storage of data, for controlling, operating, monitoring, and adjusting electrical

systems of vehicles, data analysis, image content analysis, information analysis, data transformation, data input and output transmitting electronic communications, speech recognition, and graphics display, all for use in the fields of artificial intelligence and in the fields of automotive engineering, interactive communication, infotainment and entertainment; rental of computer software for use in the fields of artificial intelligence and in the field of automotive engineering; rental of computer hardware and computer peripheral devices; IT consultancy, advisory and information services relating to the installation, maintenance and repair of computer hardware and software; IT security services in the nature of protection being computer security threat analysis for protecting data and recovery of computer data, electronic data backup and electronic information data conversion services, data coding services being computer programming, computer systems analysis and computer diagnostic services, implementation of computer software programs on networks; Implementation of computer systems; Computer project management; Data mining; Technological services relating to computers, computer networking; Updating the memory banks of computer systems, Data migration services, Updating of websites, for others, Monitoring of computer systems by remote access; Science and technology services namely, scientific and technological research in the field of vehicle device integration, software and artificial intelligence platforms for vehicle body and cockpits, autonomous driving, vehicle motion and energy applications, and digital business and mobility services; testing, authentication and quality control of automobile parts; design services in the field of self-propelled vehicle technology; industrial analysis and research services in the field of self-propelled vehicle technology; industrial design; Research and development for others with regard to new products; Provision of scientific information, advice and consultancy in relation to carbon offsetting; Software design for others; Consultancy and information in relation to the aforesaid services

Claims

Priority Filing Date: February 19, 2020, Country or Office: GERMANY, Application No. 3020200035635 in association with the same kind of goods and in association with the same kind of services
