COVA GUARD

Goods (Nice class & Statement)

1	(1) chemical preparations for use in manufacturing to create a protective barrier against microorganisms on the finished article; chemical surface coating compositions for industrial use, namely for use in the manufacture of medical, surgical, laboratory and diagnostic test devices and equipment, biomatrices, orthopaedic implants, sutures, catheters, IV lines, and haemodialysis lines; chemical surface coating compositions for industrial use, namely for use in the manufacture of antimicrobial coatings for medical, surgical, laboratory and diagnostic test devices and equipment, biomatrices, orthopaedic implants, sutures, catheters, IV lines, and haemodialysis lines; chemical surface coating compositions for industrial use, namely for use in the manufacture of bed sheets, towels of textile, clothing, tents; chemical surface coating compositions for industrial use, namely for use in the manufacture of textiles; chemical surface coating compositions for industrial use, namely for use in the manufacture of antimicrobial coatings for textiles; chemical preparations for use in the manufacture of adhesives having a protective barrier against microorganisms
5	(2) Antimicrobial preparations for creating a protective barrier against microorganisms; antimicrobial spray liquid for creating a protective barrier against microorganisms; antimicrobial gel for creating a protective barrier against microorganisms; antimicrobial aerosol for creating a protective barrier against microorganisms; antimicrobial cream for creating a protective barrier against microorganisms; articles impregnated or coated with antimicrobial preparations for creating a protective barrier against microorganisms, namely tissues, disposable sanitizing wipes, bandages for skin wounds, surgical bandages, medical and surgical dressings, dressings for catheter insertion sites, dressings for chronic ulcerated wounds, dressings for severe burns, adhesion-prevention dressings; antimicrobial adhesives for medical applications, antimicrobial adhesives for medical applications namely for adhering wound dressings to the skin, for adhering dressings for catheter insertion sites, for securing surgical and medical apparatus to the skin, and for application to medical and surgical devices for localized delivery of active pharmaceutical ingredients, antimicrobial adhesives for use in surgery, antimicrobial medical adhesives for binding internal and external tissue and wounds, antimicrobial adhesives for wound dressing; textiles impregnated or coated with antimicrobial preparations; latex rubber impregnated or coated with antimicrobial preparations; antimicrobial sprays for coating

	hard surfaces namely table tops, counter tops, door knobs, doors, chairs
9	(3) Contact lenses featuring a protective barrier against microorganisms
10	(4) Medical devices, surgical devices and diagnostic test devices having a protective barrier against microorganisms, namely anatomical bandages for joints, compression bandages, elastic bandages, hernia bandages, support bandages, non-invasive ECG and EEG electrodes and leads, implantable electrodes (cortical, defibrillator, pacemaker, and stimulator), reusable surgical instruments, single-use scalpels, forceps, biopsy needles, syringe needles, needles used for suturing, sutures (absorbable and nonabsorbable), cannulas (infusion, brain, coronary, ventricular), intra-ocular lenses, enteral feeding pump tubes, tracheal tubes, tubing for use with infusion pumps, nasal gastric tubes, liquid/ gas-flow tubes (epidural and spinal catheters), hip implants, maxilla-facial implants, implantable staples, prosthetic joint replacements, annuloplasty rings, orthopaedic bone cement, contraceptive devices, namely clips, bands and inserts for use with fallopian tubes, and clips and bands for use with vas deferens, embolization prevention implants, cardiovascular patches, intracardiac patch prostheses, mammary prostheses, vascular prostheses, infusion ports, infusion port catheters, suction catheters, angiography catheters, cardiac catheters, cerebrospinal catheters, hydrocephalic catheters, intravascular catheters, ventricular neurological catheters, vascular perfusion catheters, cardiovascular stents, iliac stents, biliary, intermittent, abscess, and thoracic drains, cerebrospinal drains, carotid artery shunts, urine drug test kits, urine pregnancy test kits, saliva drug test kits, saliva alcohol test kits, blood collection tubes, cholesterol and blood glucose test kits, in vitro diagnostic accessories, multi-well culture plates, orthopaedic implants, sutures, catheters, IV lines, and haemodialysis lines, masks for use by medical personnel, gloves for use by medical personnel, medical gowns, surgical gowns, patient examination gowns, hospital bedding, hospital scrubs, bed sheets, tents, urethral catheters, surgical staples

Services **(Nice class & Statement)**

40	(1) Consulting services and independent contracting services in the field of applying antimicrobial surface coatings and impregnating materials with antimicrobial preparations; consulting services and independent contracting services in the field of antimicrobial additives in manufacturing processes
