Goods (Nice class & Statement)

9 (1) Computer hardware and software for integrating computer servers, computer networks, and data storage into a single solution for data management and managing information technology infrastructure and applications; downloadable computer software, namely, a single data management downloadable computer software platform for managing data distributed across multiple locations, data centers, public clouds, private clouds and hybrid clouds; Computer software analytics platform for analyzing, visualizing, and manipulating large quantities of unstructured, structured, and semi-structured data distributed across multiple locations, data centers, public clouds, private clouds and hybrid clouds; Computer software for management of distributed data sources in a single user interface; computer hardware; computer hardware for data management; computer hardware for data storage and data backup; Computer software for data management; downloadable computer software for data storage, data backup, data protection, data migration, data archival, data analytics, data searching, data indexing, data retrieval, data reporting, data deduplication, data redundancy and data recovery and replication; downloadable database management computer software for use in the field of enterprise data and information management; downloadable computer software for data disaster recovery and replication; downloadable computer software for data management; downloadable computer software development tools; downloadable cloud-based software for data management; mobile application for data management in the nature of data storage, data backup, data protection, data migration, data archival, data analytics, data searching, data indexing, data retrieval, data notifications, data monitoring, data reporting, data deduplication, data redundancy and data recovery and replication; downloadable mobile application for data disaster recovery and replication; downloadable mobile application for managing and operating software in the fields of data security, compliance assessment, and cybersecurity.

Services (Nice class & Statement)

42 (1) Computer services, namely, cloud hosting provider services; computer services, namely, integration of private and public cloud computing environments on a subscription or pay-per-use basis; providing virtual computer systems and virtual computer environments through cloud computing on a subscription or pay-per-use

basis; Consulting services in the field of software as a service, computer and data security, computer- based information systems for businesses, cloud integration business technology, computer infrastructure hosting services, namely, providing computer hardware, computer software, computer peripherals to others on a subscription or pay-per-use basis; Software-as-a-service (SaaS) and Platform-as-a-service (PaaS) services featuring software for use in computer and network operation, management, automation, virtualization, configuration, deployment, management, asset optimization, industrial automation, machine diagnostics, and optimization of industrial, mining, healthcare, manufacturing and infrastructure management processes; Cloud computing featuring software for use in asset optimization, industrial automation, machine diagnostics, and optimization of industrial, mining, healthcare, manufacturing and infrastructure management processes; Providing temporary use of on-line non-downloadable software for use in information technology (IT) management, IT infrastructure management, IT asset management, IT reporting and forecasting, IT monitoring, data backup, recovery, archiving, deduplication, database management, data center operation and automation, data transmission, storage, processing, cloud computing, asset optimization, industrial automation, machine diagnostics, and optimization of industrial, mining, healthcare, manufacturing and infrastructure management processes; Computer software consulting; consulting in the field of computer software design, data security and data privacy; computer security threat analysis for protecting data; design and development of electronic data security systems; Consulting services in the design of computer hardware and software systems for others; consulting services in the field of cloud computing, computer technology and computer security; cloud storage services, namely, consulting services in the field of cloud computing software adoption; cloud computing featuring software as a service for use in data storage and file synchronization; Computer programming; Computer software design; Installation, maintenance and repair of computer software; rental of computer software; rental of web servers, data servers and rental of server memory space; Hosting computer software of others for access by others for use in the fields of business analysis, strategy, data, testing and modeling, simulations, all related to IoT (the Internet of Things); consulting, advice and information services related to the aforesaid services; Consulting services in the field of computer software design, data security and data privacy; computer security threat analysis for protecting data; design and development of electronic data security systems; Consulting services in the design of computer hardware and software systems for others; consulting services in the field of cloud computing, computer technology and computer security; cloud storage services, namely, consulting services in the field of cloud computing software adoption; cloud computing featuring software as a service for use in data storage and file synchronization; Computer programming; Computer

software design; Installation, maintenance and repair of computer software; rental of computer software; rental of web servers, data servers and rental of server memory space; Hosting computer software of others for access by others for use in the fields of business analysis, strategy, data, testing and modeling, simulations, all related to IoT (the Internet of Things); Computer services, namely, providing virtual and non-virtual application servers, web servers, file servers, redundancy servers, and database servers of variable capacity to others; computer services, namely, integration of private and public cloud computing environments; Consulting, advice and information services related to the aforesaid services.
