NORTON LIFE LOCK

Vienna information (Code & Description)

24.17.20	Check signs
25.7.1	Surfaces or backgrounds covered with repeated geometrical figures or designs
A 25.7.3	Surfaces or backgrounds covered with squares or rectangles (except a 25.7.4)
26.1.1	Circles
A 26.1.3	One circle or ellipse
A 26.1.16	Circles or ellipses containing other figurative elements
26.4.1	Squares
26.4.9	Several quadrilaterals juxtaposed, joined or intersecting
A 26.4.24	Quadrilaterals with dark surfaces or parts of surfaces

Goods (Nice class & Statement)

9	(1) Software, namely computer security software for firewall and anti-virus protection; computer antivirus software; computer maintenance software; computer optimization software; computer software for providing intrusion detection and prevention; computer software for providing network, Internet, and computer security; computer software for providing online identity protection and parental control; computer software for providing online transaction security; computer software for scanning, detecting, and removing viruses, worms, Trojan horses, adware, spyware, and other malware; computer software for the back-up, storage, restoration and recovery of data, folders, and files; computer software to prevent, diagnose, and repair computer problems; content filtering software; computer programs for data communications applications, and for the encryption and authentication of electronic information; computer software and databases for use in diagnosis, repair and configuration of computers, computer software and computer peripherals; computer application software for mobile phones, tablets, portable media players, and handheld computers, namely, software for use in anonymous browsing, encryption, anti-tracking protection, network protection, privacy protection, data compression, and data leakage prevention; computer software for connecting and managing remote computers, for implementing computer, software and network security measures for remote computer users; computer software for detecting identity fraud; computer software for detecting, blocking, and intercepting malware and other threats to computer hardware and software; computer software for encrypting and authenticating data; computer software for encryption; computer software for identity security; computer software for providing cryptographic network security and data security functions; computer
---	---

software for providing online transaction security; computer software for the creation of virtual private network; computer software for use in analysis and reporting of firewall log data; computer software for use in detecting malware computer software for use with computer servers for controlling and managing server applications; computer software for use in monitoring computers for security purposes; computer software for use in the encryption and decryption of digital files, including audio, video, text, binary, still images, graphics and multimedia files; computer software for use in updating other computer software; computer software for use in vulnerability scanning of networks and websites; computer software, namely, encryption software to enable secure transmission of digital information, namely, confidential, financial and credit card information over the Internet, as well as over other modes of communication between computing devices; downloadable computer software namely, utility software; computer utility software for removal of computer applications and software; electronic publications in the nature of manuals, blogs, instructional materials, teaching materials, and newsletters in the field of computer software and computer and on-line security; electronic publications in the nature of reference, user, technical and instructional manuals and data sheets for use with computer software; firewall software; fraud protection software; Internet security software, including computer software for use in the monitoring and control of computer and online activity; privacy control software; utility software for facilitating computer use at remote locations and for facilitating communications among mobile users over networks; computer application software for mobile devices, namely, software for researching suspicious applications; software to analyze privacy threats and detect malware and other system vulnerabilities for computers and mobile devices; computer software for detecting, blocking, and intercepting targeted advertising; computer software for storing and retrieving login credentials securely and generating strong passwords; computer software for tracking and managing personal and private identity data entered on websites; computer software for tracking, locating, locking and wiping lost or stolen computers, tablets, mobile devices and other digital devices; computer application software for providing alerts and notifications regarding potential identity theft, and for providing tips and information concerning identity theft; computer application software for use in electronic storage of data, documents and receipts; computer application software to assist in tracking, managing, and reporting expenses, credit scores, financial account information, and commercial transactions; mobile application software that enables users to monitor for identity theft and track their credit scores; mobile application software that enables users to respond to identity theft and credit fraud alerts and to contact support service representatives by instant message or telephone for assistance in reporting and remediating the theft or fraud; mobile application software that provides alerts and notifications to users regarding potential identity theft,

fictitious identity monitoring, credit fraud, dark web activity detection, investment account activity, home title records scanning, court records scanning; downloadable user manuals and instructional guides supplied with all of the foregoing.

Services (Nice class & Statement)

- 36 (1) Financial services, namely, credit repair and restoration; insurance services; credit reporting services; credit risk management and consultation services, namely, assistance with restoring and analyzing credit damaged by identity theft; credit risk management, credit risk consultation, and analyzing credit damaged by identity theft; financial services, namely, credit repair and restoration; fraud resolution assistance, namely, assistance with restoring credit damaged by identity theft; providing advice and consultation in the field of credit reports and credit scores; providing credit reporting data maintained by others; providing financial information via a web site; providing reimbursement of costs associated with identity theft; tracking and reporting regarding consumer credit reports and changes thereto.
- 38 (2) Telecommunications services, namely, providing electronic email and push notifications and delivery of software updates via a global computer network; telecommunication services, namely, providing an on-line forum for users to provide comments and reviews of software applications, mobile applications, software design and computer security software solutions and services and cybersecurity; providing virtual private network (VPN) services, namely, private and secure electronic communications over a private or public computer network.
- 42 (3) Software as a service (SaaS) software for firewall and anti-virus protection as a service; software as service (SaaS), namely, computer maintenance and optimization software as a service; software as a service (SaaS) for use in electronic storage of data; software as a service (SaaS) to assist in tracking, managing, and reporting expenses, credit scores, account information, and commercial transactions; software as a service (SaaS), for providing alerts and notifications regarding potential identity theft, and for providing tips and information concerning identity theft; computer services, namely, data recovery services, namely computer services for data recovery; computer services, namely, detection of viruses and threats; application service provider services, namely, providing on-line, non-downloadable software for computer security testing in the fields of computer and Internet security; computer software installation services; computer support services, namely, technical support and software update services; computer systems analysis in the field of security, access, authorization, authentication encryption, and identification systems for computers and computer networks; computer virus protection services; design and implementation of software and technology solutions for the purposes of protecting against counterfeiting, tampering and diversion, and to ensure the

integrity of genuine websites; development of software for network and Internet security and data encryption; development, updating, publishing and maintenance of software for networks and standalone computers in the fields of security, database management, and anti-virus protection and monitoring security systems; electronic monitoring of computer networks for security purposes; electronic notification and delivery of software updates; electronic storage of data; computer software consultation; encryption and decryption of data and communications; identity theft protection services, namely, fraud prevention in the form of computerized and electronic monitoring of personal and financial information; on-line technical support services, namely, troubleshooting in the nature of diagnosing of computer hardware and software problems; providing authentication of website operator identity; providing information about assessing computer security, preventing computer threats and design and development of computer security hardware and software applications; providing information in the field of computer network and Internet security; providing information in the field of information technology relating to communications devices, computers, computer hardware, computer software, computer peripherals, and computer networks; computer services, namely, providing search engines for obtaining data on a global computer network; providing information in the field of network and Internet security; providing security threat management systems, namely, electronic monitoring and tracking of security vulnerabilities and problems in computer software products, the Internet, and computer networks; providing security threat management systems, namely, monitoring and tracking of security vulnerabilities and problems in computer software products, the Internet, and computer networks; providing technical information in the field of computer software applications; security verification of computer network firewalls, servers and other network devices from unauthorized access, namely, analyzing global computer information network and internal computer network vulnerability; software as a service featuring software for use in scanning networks and websites to detect and identify vulnerabilities and malware; technical and customer support services, namely, troubleshooting of computer software problems; technical consultation in the field of computer software installation and maintenance; technical support services, namely, providing back-up computer programs and facilities; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; updating of computer software for others; Software as a service (SaaS) featuring software for storing and retrieving login credentials securely and generating strong passwords; software as a service (SaaS) services featuring software for securely backing up and archiving electronic data.

(4) Providing information in the fields of finance and information security, namely providing information on consumer credit, fraud and identity theft; fraud and identity theft protection services consisting of credit card and debit

card cancellation services in the event of loss or theft,
namely, registering credit and debit cards for cancellation
