**Vienna information (Code & Description)**

25.7.1 Surfaces or backgrounds covered with repeated  
geometrical figures or designs  
A 25.7.8 Surfaces or backgrounds covered with other repeated  
geometrical figures or designs  
26.3.4 Several triangles, juxtaposed, joined or intersecting  
27.5.1 Letters presenting a special form of writing  
A 27.5.4 Letters embellished or decorated with a drawing or  
composed of a collection of drawings

**Goods (Nice class & Statement)**

9 (1) Educational software and learning programs utilizing  
artificial intelligence for early childhood education,  
kindergarten, elementary school, secondary school and  
adult learning; downloadable applications for mobile  
computing devices, namely smart phones, portable media  
players, tablet computers, handheld computers, and smart  
watches, for accessing educational software and learning  
programs utilizing artificial intelligence for early childhood  
education, kindergarten, elementary school, secondary  
school and adult learning; application programming  
interface (API) software that enables developers to build  
software applications and learning programs for early  
childhood education, kindergarten, elementary school,  
secondary school and adult learning

**Services (Nice class & Statement)**

35 (1) Online retail store services featuring downloadable  
computer software and mobile applications  
41 (2) Developing learning models and processes for use in  
education, training and learning development plans and  
learning-based activities for children and adults;  
educational services, namely providing reports tracking  
children's learning development for parents and teachers  
for use in preparing education and learning development  
plans and learning-based activities for children;  
educational services, namely providing reports tracking a  
person's learning development for use in preparing  
education, training and learning development plans and  
learning-based activities; educational services, namely  
providing educational data to early childhood educators  
with respect to a child's physical, emotional, social,  
cognitive and communicative development and  
observations from educators and families to allow the  
creation of tailored early childhood education learning  
development plans for each learner in the class;

42

educational services, namely providing educational data to educators with respect to a child's physical, emotional, social, cognitive and communicative development and observations from educators and families to allow the creation of tailored education learning development plans for each learner in the class; educational services, namely providing educational data to educators and trainers with respect to a person's learning development to allow the creation of tailored learning development plans for each learner in the class; providing tailored early childhood education learning development plans for each learner in the class; providing tailored education and training learning development plans for each learner in the class. (3) Providing online non-downloadable educational software and learning programs utilizing artificial intelligence for early childhood education, kindergarten, elementary school, secondary school and adult learning; platform as a service (PaaS) featuring computer software platforms for use in the field of educational software and learning programs utilizing artificial intelligence for early childhood education, kindergarten, elementary school, secondary school and adult learning; software as a service (SaaS) provider in the field of educational software and learning programs utilizing artificial intelligence for early childhood education, kindergarten, elementary school, secondary school and adult learning; artificial intelligence as a service (AIaaS) provider in the field of educational software and learning programs for early childhood education, kindergarten, elementary school, secondary school and adult learning; application programming interface (API) platform services that enables developers to build software applications and learning programs for early childhood education, kindergarten, elementary school, secondary school and adult learning; providing temporary use of web-based application software that allows users to create software applications and learning programs for early childhood education, kindergarten, elementary school, secondary school and adult learning; design, development, updating and maintenance of computer software and computer programs; consultation services in the field of computer software and software design and development.
