Services (Nice class & Statement)

42 (1) Professional consulting services in the field of aerospace engineering, namely conducting feasibility studies, conducting technical project studies, drafting and development of photovoltaic systems, inspections related to the production and usage and maintenance of aircraft, inspections related to the production and usage and maintenance of launch vehicles, inspections related to the production and usage and maintenance of space vehicles, inspections related to the production and usage and maintenance of spacecraft, investigating design improvements and optimizations, performance of scientific research and technical studies, preparation of scientific research and technical analyses, product design consulting services, product development services, project management, research and development of new products for others, research in the field of welding, scientific research and technical consultancy related to aircraft, scientific research and technical consultancy related to launch vehicles, scientific research and technical consultancy related to space vehicles, scientific research and technical consultancy related to spacecraft, technical consulting, technical research in the field of aeronautics, technical research in the field of astronautics, technical writing, technological consultancy, technological research; professional non-consulting services in the field of aerospace engineering, namely aircraft design, design of avionics, design of mechanisms, design of modifications and repairs to avionics, design of modifications and repairs to mechanisms, design of modifications and repairs to primary structural members, design of modifications and repairs to propulsion systems, design of modifications and repairs to secondary structural members, design of modifications and repairs to tertiary structural members, design of photovoltaic systems, design of primary structural members, design of propulsion systems, design of secondary structural members, design of tertiary structural members, drafting services, launch vehicle design, space vehicle design, spacecraft design, spacecraft telemetry monitoring, technical writing; professional consulting services in the field of computer engineering, namely computer programming consultancy, computer software consultancy, computer technology consultancy, conducting feasibility studies, conducting technical project studies, consultancy in the design and development of computer hardware, drafting and development of photovoltaic systems, investigating design improvements and optimizations, performance of scientific research and

technical studies, preparation of scientific research and technical analyses, product design consulting services, product development services, project management, research and development of new products for others, scientific research and technical consultancy related to aircraft, scientific research and technical consultancy related to launch vehicles, scientific research and technical consultancy related to space vehicles, scientific research and technical consultancy related to spacecraft, technical consulting, technical research in the field of aeronautics, technical research in the field of astronautics, technical writing, technological consultancy, technological research; professional non-consulting services in the field of computer engineering, namely computer hardware and software design, computer programming, computer programming and software design, computer system design, data decryption services, data encryption and decoding services, data encryption services, database design and development, debugging computer software for others, design of integrated circuits, development and creation of computer programmes for data processing, development of computer platforms, drafting services, technical writing; professional consulting services in the field of computer science, namely advisory services in the field of product development and quality improvement of software, computer programming consultancy, computer software consultancy, conducting feasibility studies, conducting technical project studies, drafting and development of photovoltaic systems, investigating design improvements and optimizations, performance of scientific research and technical studies, preparation of scientific research and technical analyses, product design consulting services, product development services, project management, research and development of new products for others, scientific research and technical consultancy related to aircraft, scientific research and technical consultancy related to launch vehicles, scientific research and technical consultancy related to space vehicles, scientific research and technical consultancy related to spacecraft, technical consulting, technical research in the field of aeronautics, technical research in the field of astronautics, technical writing, technological consultancy, technological research; professional non-consulting services in the field of computer science, namely computer hardware and software design, computer programming, computer programming and software design, computer system design, data decryption services, data encryption and decoding services, data encryption services, database design and development, debugging computer software for others, design of integrated circuits, development and creation of computer programmes for data processing, development of computer platforms, technical writing; professional consulting services in the field of mechanical engineering, namely conducting feasibility studies, conducting technical project studies, drafting and development of photovoltaic systems, investigating design improvements and optimizations, mechanical research, performance of scientific research and technical studies, preparation of scientific research and technical analyses,

product design consulting services, product development services, project management, research and development of new products for others, research in the field of welding, technical consulting, technical writing, technological consultancy, technological research; professional non consulting services in the field of mechanical engineering, namely design of mechanisms, design of modifications and repairs to mechanisms, design of modifications and repairs to primary structural members, design of modifications and repairs to secondary structural members, design of modifications and repairs to tertiary structural members, design of photovoltaic systems, design of primary structural members, design of secondary structural members, design of tertiary structural members, drafting services, technical writing; professional consulting services in the field of aerospace telecommunications, namely conducting feasibility studies, conducting technical project studies, drafting and development of photovoltaic systems, investigating design improvements and optimizations, performance of scientific research and technical studies, preparation of scientific research and technical analyses, product design consulting services, product development services, project management, research and development of new products for others, research in the field of aerospace telecommunications technology, scientific research and technical consultancy related to aircraft, scientific research and technical consultancy related to launch vehicles, scientific research and technical consultancy related to space vehicles, scientific research and technical consultancy related to spacecraft, technical consulting, technical research in the field of aeronautics, technical research in the field of astronautics, technical writing, technological research, aerospace telecommunications hardware, aerospace telecommunications software; professional non-consulting services in the field of aerospace telecommunications, namely computer hardware and software design, computer programming, computer programming and software design, data decryption services, data encryption and decoding services, data encryption services, database design and development, debugging computer software for others, design of avionics, design of integrated circuits, design of modifications and repairs to avionics, design of modifications and repairs to aerospace telecommunication electronics, design of aerospace telecommunication electronics, development and creation of computer programmes for data processing, drafting services, technical writing.
