FARMERS EDGE

**Services (Nice class & Statement)**

- 35 (1) Association services, namely, promoting the adoption and acceptance of agricultural standards for sequestration of carbon and other greenhouse gases; promoting voluntary common industry standards for farming sequestration of carbon and other greenhouse gases; provision of an online marketplace for buyers and sellers of carbon and other greenhouse gas credits, allowances or offsets; public policy consultancy services in the field of climate change and carbon footprints; consultation services in the field of household and business energy efficiency; providing data management services to businesses in the field of carbon offsets by calculating their carbon offsets, and providing quantification and verification support services in the field of carbon offsets; providing data management services to businesses in the field of water credits by calculating their water credits, and providing quantification and verification support services in the field of water credits; providing data management services to businesses in the field of habitat credits by calculating their habitat credits, and providing quantification and verification support services in the field of habitat credits; land management; business management consultation in the field of clean energy, namely, solutions for using solar, wind, biodigester and combined heat and power systems; business consulting and project management services in the fields of industrial water use conservation; business consulting services, namely, implementing processes and technologies to reduce methane emissions from anaerobic decomposition of biological waste, namely, converting bio-mass to energy, use of bio-digesters, gasification, land fill gas capture, sewage and manure lagoon capture, waste water management, manure management; business consulting services, namely, implementing processes and technologies to reduce methane emissions from the oil and gas sector, namely, capture of fugitive mine methane; business consulting services, namely, implementing processes and farm nitrogen management practices to reduce nitrous oxide emissions; business consulting services, namely, implementing waste-to-energy solution processes and technologies, namely, aerobic and anaerobic bio digesters, gasification, biomass processes using boilers and incineration; data management services in the field of agriculture; data collection services in the field of agriculture; report generation services in the field of agriculture; record-keeping services in the field of agriculture;
- 36 (2) Brokerage of carbon credits; brokerage of greenhouse gas credits; brokerage of carbon offsets; brokerage of

- carbon dioxide and other greenhouse gas emission credits, allowances or offsets on behalf of offset producers; brokerage of greenhouse gas offsets; trading of carbon dioxide and other greenhouse gas emission credits, allowances or offsets; financial sponsorship of carbon offset programs; financial services, namely, funding of and capital investment in emissions reduction projects; financial investment in the field of carbon offset programs and related projects for others; brokerage of carbon dioxide and other greenhouse gas emission credits, allowances and offsets on behalf of offset producers; brokerage of water pollution credits, allowances and offsets on behalf of pollution producers; brokerage of habitat destruction credits, allowances and offsets on behalf of habitat destroyers; insurance services;
- 41 (3) Providing education information in the field of sequestration of carbon and other greenhouse gases; educational services, namely, conducting programs in the field of sequestration of carbon and other greenhouse gases; education, namely, training services in the field of mapping, measuring, verifying, reducing and offsetting greenhouse gas emissions, researching, data collecting, analyzing, and providing policy advice regarding climate change strategies, carbon footprints and the creation and registration of carbon offset credits, and improving household and business energy efficiency; education, namely, training services in the field of water conservation, and the creation and registration of water credits; education and training services in the field of wildlife habitat conservation, and the creation and registration of habitat credits;
- 42 (4) Provision of scientific information, advice and consultancy in relation to carbon offsetting; providing technical advice, information and consultancy in relation to providing carbon collection and offsetting; operation and maintenance of an Internet website containing information relating to electrical and electronic apparatus including carbon offsetting services including re-cycling and reforestation and tree planting for carbon offsetting and carbon collection programs and services; operation and maintenance of an internet website containing information on providing a carbon collection program; providing a carbon collection program; non-downloadable software; provision of information, advice, and consultancy in relation to carbon offsetting; consulting services pertaining to the technology of agricultural sequestration of carbon and other greenhouse gases; consulting services pertaining to regenerative farming practices for the sequestration of carbon and other greenhouse gases; consultation services relating to agriculture and soil carbon, carbon emissions and environmental issues; measurement and verification of carbon dioxide and other greenhouse gas emission offsets; measurement, analysis, and verification of soil carbon, carbon emissions and other greenhouse gas emissions; platform as a service (PaaS) featuring computer software platforms for data collection and analysis for use in research relating to the sequestration of carbon and other greenhouse gases; consulting and technical services in the nature of data

collection and analyzation, namely, scientific research in the fields of mapping, measuring, verifying, reducing and offsetting greenhouse gas emissions; consulting and technical services, namely, scientific research in the field of water conservation; consulting and technical services in the field of habitat conservation, namely, monitoring, testing and analyzing ecological success in the field of environmentally sensitive habitat conservation and preservation of native plants and wildlife; software as a service (SAAS) services featuring software in the field of carbon offsets, for calculating carbon offsets, and providing quantification and verification services in the field of carbon offsets, mapping, measuring, verifying, reducing and offsetting greenhouse gas emissions, researching, data collecting and analyzing, and facilitating policy advice regarding climate change strategies, carbon footprints, and the creation and registration of carbon offset credits, and improving household and business energy efficiency; software as a service (SAAS) services featuring software in the field of water credits, for calculating water credits, and providing quantification and verification services in the field of water credits, researching, data collecting and analyzing, and facilitating policy advice regarding the creation and registration of water credits; software as a service (SAAS) services featuring software in the field of habitat credits, for calculating habitat credits, and providing quantification and verification services in the field of habitat credits, researching, data collecting and analyzing, and facilitating policy advice regarding the creation and registration of habitat credits; technical consultancy in the field of environmental science, namely analysis, measurement and reporting of the content, attributes and environmental benefits of forests, peat and soils use in agriculture; providing agency consulting services in the field of carbon offset credits projects, namely, environmental advisory services to businesses with regard to calculating their greenhouse gas emission reductions, aggregating carbon offset credits, negotiating carbon credit transactions on their behalf; providing agency consulting services in the field of water credit projects, namely, advisory services to businesses with regard to aggregating water credits and negotiating water credit transactions on their behalf; providing agency consulting services in the field of habitat credit projects, namely, advisory services for businesses with regard to aggregating habitat credits and negotiating habitat credit transactions on their behalf ; consultation services, namely services for determining energy efficiency of others by conducting energy use review, reviews, and site and energy audits; e-commerce online retail services and provision of an internet platform for ecommerce;

44

(5) Tree planting for carbon offsetting purposes; carbon offsetting services including and reforestation and tree planting for carbon offsetting; carbon collection programs and services; agricultural advice; agricultural advice relating to regenerative farming practices; providing a

website that features information on reduction of carbon dioxide and other greenhouse gas emissions through agricultural processes;
