facsimile machines, computer scanner and computer printer; plotters, namely, printer plotters, electronic and digital plotters, and X-Y plotters; printers with copy, facsimile, scanning function and their parts and fittings; photosensitive drums for copiers; photosensitive drums for computer printers; photosensitive drums for facsimiles; photoreceptor drums for multifunctional devices which incorporate printer, facsimile, copier and scanner functions; thermal print heads; ink jet heads; LED print heads; print heads; light-emitting diodes [LED]; laser diodes; organic light-emitting diodes [OLED]; semiconductor elements; computer software for document management and creating or document and image processing, namely for converting document images into electronic formats; computer software for scanning images and documents; computer programs for data processing in the nature of database management; computer programs and software for image processing; computer software for operating computer print server; computer software for diagnostics and troubleshooting, namely, utility programs for performing computer system diagnostics; computer software for digital print application development; downloadable computer application software for database management use in computer network security management, for use in printing purposes, for image processing, for displaying business data analysis result, for automatic management of digital document creation, for database management of user and customer information, expenses and login data, data processing being database management, for database management of business data analysis, business data aggregation, and for document management of official documents and family register information in the nature of personal financial, insurance, education and medical information; downloadable computer application software for database management; downloadable computer programs for operating computer hardware for security management, computer printers, computer scanners, photocopiers, facsimile machines, computer servers, computer hardware for date management and computer hardware for business information management; downloadable computer programs for use in database management of user and customer information, expenses and log data, for business data mining services of official documents and family register information, financial, insurance, education and medical services; display units for computers; electrostatic copying machines; chip cards, namely, blank integrated circuit cards; IC card readers; downloadable computer programs for surveillance; downloadable software for computer screen saver; credit card terminals; bar code readers; electronic circuits; electronic authentication devices, namely, radio-frequency identification (RFID) readers; audio and video projectors; LCD projectors; digital projectors; paper feed trays for computer printers, photocopiers, printers, scanners, and facsimile machine including individually or as multifunctional machines; paper discharge trays for computer printers, photocopiers, printers, scanners, and facsimile machine including individually or as

multifunctional machines; stacker trays for computer printers, photocopiers, printers, scanners, and facsimile machine including individually or as multifunctional machines; IC card printers using multi-function machines with printing, copying and scanning function; IC card writers; toner cartridges, unfilled; toner cartridges, unfilled, for printers and copies; ink cartridges, unfilled; personal digital assistants; downloadable electronic publications in form of digital magazines, manuals, newsletters, and brochures; parts and accessories for telecommunication machines and apparatus, namely, global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices, electric remote control panels, computer hardware for telecommunications, network routers, wireless LAN (local operating network) hardware and network security computer hardware and software; computers; recorded computer software platforms for operating computer hardware for security management, computer printers, computer scanners, photocopiers, facsimile machines, computer servers, computer hardware for data management and computer hardware for business information management; recorded computer software platforms for database management of expense data and log data; recorded computer software platforms for use in management services of official documents and family register information and financial, insurance, education and medical services, namely for database management; recorded computer software platforms for database management of business data analysis; optical character readers; downloadable computer software applications for operating computer hardware for security management, computer printers, computer scanners, photocopiers, facsimile machines, computer servers, computer hardware for data management and computer hardware for business information management; downloadable computer software applications for database management of expense data and log data; downloadable computer software applications for use in management services of official documents and family register information and financial, insurance, education and medical services, namely for database management; downloadable computer software applications for database management of business data analysis; computer printers; data processing equipment, namely computers and computer hardware for data processing; network servers for cloud computing; document or image data processors and accessories, namely computers; document and image data capturing apparatus, namely cameras, computer scanners; computer software for database management; downloadable computer software for document management; computer software for document management, recorded; computer software for converting document images into electronic formats; downloadable computer software for word processing; printing machines, namely, xerographic printers.

Services (Nice class & Statement)

(1) Consultancy relating to design and development of computer software and computer for printing; consultancy in the field of computer programming for data processing and communication systems; design and development of electronic data security systems; rental of computers; creating of computer programs for others on data networks; computer software design, computer programming, or maintenance of computer software; testing and research services in the field of computers and computer hardware and software; designing of machines, apparatus, instruments, namely, computer hardware, computer printers, photocopiers, computer scanners, printer plotters, electronic and digital plotters, and X-Y plotters, facsimile machines and their structural parts and systems composed of such machines, apparatus and instruments; digitization of documents [scanning]; electronic data storage for archiving business records; computer technology consultancy; Information technology [IT] consulting services, namely computer hardware and software consulting services; technological consultancy relating to the performance and operating methods of computers, automobiles; rental of scanners; off-site data backup; monitoring of computer systems to detect breakdowns; monitoring of computer systems by remote access; computer system design; computer software design; upgrading of computer software; maintenance of computer software; copying of computer programs; data encryption services; conversion of data or documents from physical to electronic media; monitoring of computer systems for detecting unauthorized access or data breach; software as a service [SaaS] services featuring software for use in database management, word processing, and for operating and managing photocopiers and computer printers; hosting computer sites [web sites]; rental of computer software; platform as a service [PaaS] services featuring software for use in database management, word processing, and for operating and managing photocopiers and computer printers; server hosting; information services in the nature of data automation and data collection using software to evaluate, analyze and collect research data in the field of Big Data for business data analytics and user behavior analytics; providing non-downloadable computer software for technical and scientific analysis by artificial intelligence [AI] namely design, development and maintenance of cloud based, non-downloadable computer AI software; providing non-downloadable computer software for corporate data analysis and reporting; providing online non-downloadable software for word processing; design, development, maintenance, updating and rental of computer software for word processing; information services in the field of design of computer equipment for word processing; installation and maintenance of computer programs for document management; design, programming and maintenance of computer software for word processing; computer programming services for electronic data security; electronic data security consultancy; computer programming for others in the field of data processing and communication systems; computerized conversion of

electronic data from one media to another; remote monitoring of computer system for word processing; monitoring using computer programs for word processing for preventing the intrusion of unauthorized access by others; provision of online application software for document management [SaaS]; rental of word processors.

Claims

Priority Filing Date: January 19, 2021, Country or Office: JAPAN, Application No. 2021-005120 in association with the same kind of goods and in association with the same kind of services
