Vienna information (Code & Description)

1.13.1	Armillary spheres, planetaria, astronomic orbits, atomic models, molecular models
A 1.13.15	Atomic models, molecular models, representations of human, animal or vegetal cells, images of bacteria or viruses, DNA helixes
26.1.1	Circles
26.1.6	Several circles or ellipses, juxtaposed, tangential or intersecting
26.4.1	Squares
26.4.4	Other irregular parallelograms, trapezia and quadrilaterals, quadrilaterals containing one or more rounded corners
A 26.4.5	One quadrilateral
26.4.10	Quadrilaterals containing one or more circles, ellipses or polygons
26.4.12	Quadrilaterals containing one or more other geometrical figures -- Note: Including quadrilaterals containing bent or straight lines (except 26.4.11).
A 26.4.13	Quadrilaterals containing representations of heavenly bodies or natural phenomena
A 26.4.18	Quadrilaterals containing one or more letters
A 26.4.24	Quadrilaterals with dark surfaces or parts of surfaces
26.7.4	Circles or ellipses with lines (except 26.7.3)
26.11.3	More than two lines or two bands
A 26.11.9	Oblique lines or bands
A 26.11.10	Straight lines or bands
27.3.1	Letters or numerals representing a human being or a part of the human body, an animal or a part of an animal's body, a plant, a heavenly body, a natural phenomenon or an object
A 27.3.12	Letters or numerals representing a heavenly body or a natural phenomenon
27.5.1	Letters presenting a special form of writing
A 27.5.8	Letters linked to or containing a figurative element -- Note: Letters representing a human being or a part of the human body, an animal or a part of an animal's body, a plant, a heavenly body, a natural phenomenon or an object are classified in division 27.3.
29.1.8	Black
29.1.1	Red, pink, orange
29.1.6	White, grey, silver

Colour claim

Colour is claimed as a feature of the trademark. The mark consists of the black stylized wording "MINDOMO" to the right of a red square containing a stylized letter "M" formed by six white circles connected by straight white lines.

Goods (Nice class & Statement)

- 9 (1) Real-time collaborative editing [rtce] platforms [software]; computer programs for project management; scheduling software; application software for social networking services via internet; downloadable mobile applications for the transmission of data; downloadable mobile applications for the transmission of information; computer software platforms for social networking; computer programs for network management; interactive computer software enabling exchange of information; downloadable computer software for the transmission of information; communications processing computer software; computer software for the dissemination of positioning data; communication, networking and social networking software; communication software for connecting computer network users; communication software; instant messaging software; computer software to enable browsing on global computer networks; networking software; community software; social software; computer programs and software for image processing used for mobile phones; computer software for the display of digital media; media and publishing software; multimedia software; media development software; media software; interactive video software; downloadable wallpapers for computers and phones; computer groupware; mobile apps; downloadable applications for use with mobile devices; downloadable mobile applications for use with wearable computer devices; educational mobile applications; workflow applications; application software; downloadable software applications; downloadable application software for smartphones; application software for mobile phones; software suites; collaboration software platforms [software]; collaboration management software platforms; collaborative software; application software for mobile devices; computer software for entertainment; interactive entertainment software; computer application software for use with wearable computer devices; virtual assistant software; application development software; software for mobile device management; software for mobile phones.

Services (Nice class & Statement)

- 42 (1) Software as a service [saas]; software as a service [saas] featuring software for machine learning; software as a service [saas] featuring software for deep learning; hosting services, software as a service, and rental of software; software as a service [saas] featuring software for deep neural networks; consulting services in the field of software as a service [saas]; installation of access control as a service (acaas) software; platforms for gaming as software as a service [saas]; platforms for artificial intelligence as software as a service [saas]; platforms for graphic design as software as a service [saas]; software as a service [saas] services featuring software for machine learning, deep learning and deep neural networks; platform as a service [paas] featuring software platforms for transmission of images, audio-visual content, video

content and messages; consultancy relating to the design and development of computer programs; administration of user rights in computer networks; developing computer software used for the analysis of data; computer project management in the field of edp; providing temporary use of non-downloadable software for analyzing financial data and generating reports; internet security consultancy; development of computer database software; development and creation of computer programmes for data processing; creation of computing platforms for third parties; providing temporary use of on-line non-downloadable software development tools; research relating to the computerised automation of administrative processes; design and development of data display systems; programming of operating software for computer networks and servers; design and development of data processing systems; designing of data processing programmes; programming of computer software for reading, transmitting and organising data; providing temporary use of non downloadable computer software; design and development of data processing programs; design and development of computer software architecture; development of data processing apparatus; research relating to data processing; providing temporary use of non-downloadable business software; data migration services; development of operating system software; providing temporary use of non-downloadable software to enable sharing of multimedia content and comments among users; providing temporary use of on-line non-downloadable software for the management of data; providing temporary use of online non-downloadable investment software; providing temporary use of on-line non-downloadable software for the management of information; research in the field of data processing technology; creation, updating and adapting of computer programs; development, updating and maintenance of software and database systems; design of computer databases; research in the field of information technology; providing online, non-downloadable software; development of data programs; development of systems for the processing of data; programming of software for importing and managing data; development of programmes for data processing; design and development of data storage systems; programming of multimedia applications; creation of internet web sites; computer software design and updating; providing temporary use of non-downloadable software to enable content providers to track multimedia content; design and development of software for database management; computer system analysis; preparation of data processing programmes; providing temporary use of on-line non-downloadable software; design and development of data entry systems; computer analysis; development of systems for the storage of data; development of systems for the transmission of data; computer software consultancy; providing temporary use of online, non-downloadable computer software for language translation; creating and updating of home pages for computer networks; programming of computer software for evaluation and

calculation of data; creating, maintaining, and modernizing computer software; providing temporary use of non-downloadable software applications accessible via a web site; computer programming services for data warehousing; development of computer programs; providing temporary use of on-line non-downloadable operating software for accessing and using a cloud computing network; programming of software for internet platforms; providing temporary use of non-downloadable software; design and development of word processing software; providing temporary use of on-line non-downloadable software for importing and managing data; creating electronically stored web pages for online services and the internet; providing temporary use of on-line non-downloadable software for database management; creating of computer programs; design of data processing apparatus; data mining; design and development of data output systems; programming of data processing equipment; design and development of electronic database software; computer software development for others; preparation of computer programs for data processing; programming of edp software; design and development of systems for data input, output, processing, display and storage; creating programmes for data processing; data security consultancy; development and maintenance of computer database software; development of data processing programs by order of third parties; design, creation and programming of web pages; design and development of data processing software; programming of software for database management; programming of educational software; consultancy relating to computer database programs; design of data storage systems; providing temporary use of on-line non-downloadable software for the transmission of data; computer programming services for data processing; development of computer software application solutions; maintenance of data processing software; programming of data processing programs; design, maintenance, development and updating of computer software; creation of computer programmes for data processing; design and development of data processing apparatus; providing temporary use of on-line non-downloadable software for the transmission of information; developing and updating computer software; design and development of software in the field of mobile applications; information technology consulting; certification of data via blockchain.

Claims

Priority Filing Date: November 10, 2021, Country or Office: EUIPO (EU), Application No. 018597674 in association with the same kind of goods and in association with the same kind of services
