Goods (Nice class & Statement)

- 1 (1) Chemicals used in industry, namely, electrolyte solutions consisting of vanadium, sulphuric acid and hydrochloric acid for leaching and chemicals for use in the manufacture of solvents for the extraction of metal.
- 7 (2) Machines used in relation to hydrometallurgical extraction from ores or concentrates, including machines used for leaching and solvent extraction; machines for metal processing, namely, metal forming machines, metal cutting machines and metal working machines; metal refining machines, namely, milling, grinding and polishing machines for metalworking.

Services (Nice class & Statement)

- 37 (1) Construction, repair and installation services, namely, construction, repair and installation in the field of mining extraction and hydrometallurgical extraction from ores and metals, and information and consultancy in relation to the aforesaid.
- 40 (2) Treatment of metal materials, namely, heat treatment of metals, cold forming of metal, metal tempering, and information and consultancy in relation to the aforesaid; metal refining services, namely, metal ore refining and precious metals refining, and information and consultancy in relation to the aforesaid; refining and treatment services relating to the oxidation and leaching of minerals, namely, refining and separation of precious metals, metal ore refining and heat treatment of metals, and information and consultancy in relation to the aforesaid; obtaining of mineral ore bases and precious metals from ores and their concentrates using extractive metallurgical and hydrometallurgical processing, and information and consultancy in relation to the aforesaid.
- 41 (3) Training and education services, namely, training and education in the field of extraction and recovery of metals from ores and their concentrates, and information and consultancy in relation to the aforesaid.
- 42 (4) Scientific and technological services, namely, scientific research, analysis and testing in the field of metallurgy, and information and consultancy in relation to the aforesaid; research and development in the field of hydrometallurgical processes, and information and consultancy in relation to the aforesaid; technical research in the field of metallurgy, and information and consultancy in relation to the aforesaid; material testing services, and information and consultancy in relation to the aforesaid; engineering services in the field of metallurgy, and
