Vienna information (Code & Description)

1.5.24	Saturn
1.5.1	Terrestrial globes
A 1.5.6	Terrestrial globes with a banderole or an inscription
A 1.5.12	Terrestrial globes with other figurative elements
26.1.2	Ellipses
A 26.1.3	One circle or ellipse
A 26.1.18	Circles or ellipses containing one or more letters
A 26.1.19	Circles or ellipses with inscriptions projecting beyond the circumference
27.5.1	Letters presenting a special form of writing
A 27.5.3	Letters in relief or shaded
1.17.2	Continents
A 1.17.4	America -- Note: Includes the whole of the continent of America (North, South and Central America) or any one or any two of the separate parts of the continent of America.

Goods (Nice class & Statement)

6	(1) Parts of oilfield wellhead machines, namely, metal pipe fittings, and metal flanges.
7	(2) Machine parts, namely, mechanical seals; machine parts, namely, bearings and linear and rotational bearings; structural and replacement parts for machines, namely, valves being parts of machines and compressors for industrial machinery; machine parts made of thermoplastic and thermoset materials for use in fluid handling equipment, namely, valves being parts of machines, wheels for industrial machinery, compressor piston rings, spline adapters, and couplings for drive shafts; reciprocating pump components, namely, pump plungers used in oilfield and liquid transfer operations in oilfield, mining and water transfer applications; parts of oilfield wellhead machines, namely, gate valves, ball valves, check valves, plug valves, globe valves, choke and manifold pumps, pump and valve parts; column drilling machines, deep hole drilling machines, drilling machines for metalworking, drilling machines for use in metallurgy, well drilling machines, wood drilling machines; shock absorbers for machines.
17	(3) Machinery packings, namely joint packings for pipes; non-metal gaskets, namely, sealing gaskets of rubber, plastic, and urethane for use in machinery and not used for land vehicle engines; seals for pipe connections; adhesive tapes for industrial use; non-metal seals for preventing leakage of fluids in fluid handling equipment; header rings for packing assemblies; semi-processed plastic in the form of stock shapes and net shapes, namely, engineering plastics made of thermoplastic and

thermoset materials for use in fluid handling equipment; semi-processed plastic materials for use in further manufacture, namely, unfinished thermoplastic and thermoset materials used in the manufacture of machine parts; semi-finished plastic goods, namely, plastic in extruded or molded form for general industrial use, namely, thermoplastic and thermoset molded or extruded components; non-metal sealing rings, gaskets and joint packings for use as pipe connection seals for fluid handling equipment; packing materials for forming seals, namely, packing rings for pump and hydraulic cylinder packings and diaphragms; semi-finished plastic goods, namely, plastics in extruded form for industrial use, namely, plastics made of thermoplastic and thermoset materials for use in fluid handling equipment, and extruded or molded form for use in the manufacture of fluid sealing devices; flexible polymeric damping devices, namely, shock absorbing buffers for industrial machinery; electrical insulators, namely, insulators made of thermoplastic and thermoset compounds; non-metal pipe gaskets, composite seals and graphite packings for pumps, gaskets and valves for use in fluid handling equipment; parts of oilfield wellhead machines, namely, fittings, not of metal, for flexible pipes and rigid pipes, and non-metal flanges.
