payments; software for creating accounts and maintaining and managing information about financial transactions on distributed ledgers and peer to peer payment networks; downloadable software for creating, executing, and enforcing smart contracts that are published, managed and verified using computer protocols, computer software applications for creating and managing smart contracts, downloadable, computer software for the creation and implementation of smart contracts; software for creating and managing electronic wallets; software for creating NFTs; software for creating, managing and accessing groups within virtual communities; software for creating, managing, and interacting with an online community; software for cryptocurrency farming; software for cryptocurrency mining; software for currency conversion; software for developing decentralized applications; software for digital currency payment and exchange transactions; software for distributing, trading, storing, sending, receiving, accepting, and transmitting digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; software for electronic funds transfer; software for encrypting and enabling secure transmission of digital information for virtual currencies, digital and blockchain assets over the Internet; software for executing and recording financial transactions; software for managing and validating transactions involving digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; software for managing and verifying transactions on a blockchain; software for creating and issuing digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; software and downloadable application software for processing, administering, managing monetary transactions and transactions involving instruments of value; software for providing authentication of parties to a financial transaction; software for maintaining ledgers for financial transactions; software for the management of cryptographic security of electronic transmissions across computer networks; software for use as a cryptocurrency wallet; software for use as an electronic wallet; software for cryptocurrency exchange; downloadable software for use with cryptocurrency, namely computer software for cryptocurrency asset management and cryptocurrency transaction management; downloadable software for virtual currency management, namely inventory management, asset management and transaction management for virtual currency, downloadable software for use in managing portfolios of virtual currencies, digital and blockchain assets, downloadable computer applications for sending, receiving, buying, selling, trading and exchanging virtual digital currency, computer software for electronic trading of virtual currency ; software for viewing and providing access to digital assets, digital tokens, crypto-tokens,

utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies.

Services (Nice class & Statement)

- 35 (1) Providing a virtual marketplace for buyers and sellers of digital goods authenticated by non-fungible tokens (NFTs); providing a virtual marketplace for digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; providing a virtual marketplace to rent, borrow, and trade non-fungible tokens (NFTs); providing an online marketplace; providing an online marketplace for buyers and sellers of digital goods authenticated by non-fungible tokens (NFTs); providing an online marketplace for digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; connecting sellers and buyers of third-party goods and services through a website; providing online marketplace to rent, borrow, and trade digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; providing online marketplaces for sellers of goods and/or services; retail store services featuring computer hardware and software; advertising the goods and services of others; auction services; consultancy and advisory services in the field of business strategy; providing an online marketplace for buyers and sellers of goods and services for facilitating the exchange and sale of services and products of third parties via computer and communication networks, business intermediary services for facilitating the exchange and sale of services and products of third parties via online marketplaces, the Internet and global computer communications networks; business marketing consulting services, consultancy and advisory services in the field of business marketing, marketing consulting services; online auction services; promoting the goods and services of others via computer and communication networks; advertising, marketing and promotional services for the purpose of facilitating business networking opportunities.
- 36 (2) Banking services; bill payment services in the field of cryptocurrency, digital currency, electronic cash, and virtual currency; blockchain-based payment verification services; creation and issuance of digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, cryptocollectibles, cryptocurrencies, digital currencies and virtual currencies; cryptocurrency, digital currency, electronic cash, and virtual currency payment processing and transaction processing services; cryptocurrency exchange services; cryptocurrency exchange services featuring blockchain technology; cryptocurrency payment processing; cryptocurrency services, namely cryptocurrency asset management, exchange services, investment services,

payment processing, and trading services; cryptocurrency trading services; digital currency services, namely digital currency brokerage services, exchange services, trading services, financial management and administration services, namely electronic transmission of digital currency and facilitating transfers of digital currency; distribution, trading, lending, exchange, Storage and transfer of digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; electronic commerce payment services; electronic currency services, namely, electronic transfer of foreign currency, virtual currency, and cryptocurrency; electronic payment services, namely, enabling electronic processing and transmission of electronic funds transfer and payment; electronic transfer of cryptocurrency, digital currency, electronic cash and virtual currency; electronic wallet services; financial affairs, namely, financial management, financial planning, financial forecasting, and financial analysis and consultation; financial brokerage services for cryptocurrency trading; financial consultation in the field of cryptocurrency; financial exchange of cryptocurrency, digital currency, electronic cash, and virtual currency; financial services in the field of cryptocurrency, digital currency and virtual currency; financial transaction services, namely, providing secure commercial transactions and payment options; financial services in the nature of payment processing services; providing financial information in the field of cryptocurrency; providing information in the fields of digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; virtual currency services.

42

(3) Design and development of decentralized applications; development and implementation of platform as a service (PaaS) featuring blockchain based software platforms namely, software for transfer or exchange of virtual currencies for data using smart contracts for conducting transaction; platform as a service (PaaS) featuring blockchain based software platforms, namely, software for transfer or exchange of virtual currencies for information and files using smart contracts and conducting transactions; electronic storage of cryptocurrency for others; non-downloadable blockchain gaming software; providing online nondownloadable gaming software using blockchain technology; providing online non-downloadable software for inventory management, data management, cryptocurrency management, and managing cryptocurrency transactions using blockchain technology; providing online non-downloadable cryptography software, namely online non-downloadable computer software for use in the encryption and decryption of digital files; providing online non-downloadable software for inventory management, data management, cryptocurrency management, and managing cryptocurrency transactions using distributed ledger technology; non-downloadable distributed ledger software for use in processing financial

transactions; providing temporary use of non-downloadable computer e-commerce software to allow users to perform electronic business transactions via a global network, providing temporary use of non-downloadable e-commerce software for inventory management, data management, cryptocurrency management, and managing cryptocurrency transactions; non-downloadable e-commerce software to allow users to perform electronic business transactions via a global computer the internet and communication networks; providing online non-downloadable software and software applications for the processing of receipt and submission of electronic payments; non-downloadable software for creating accounts and maintaining and managing information about financial transactions on distributed ledgers and peer to peer payment networks; providing online non-downloadable software for creating, executing, and enforcing smart contracts that are published, managed and verified using computer protocols, providing online non-downloadable computer software applications for creating and managing smart contracts; providing online non-downloadable computer software for the creation and implementation of smart contracts; non-downloadable software for creating and managing electronic wallets; non-downloadable software for creating NFTs; non-downloadable software for cryptocurrency farming; non-downloadable software for cryptocurrency mining; non-downloadable software for currency conversion; non-downloadable software for developing decentralized applications; non-downloadable software for digital currency payment and exchange transactions; non-downloadable software for distributing, trading, storing, sending, receiving, accepting, and transferring digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; non-downloadable software for electronic funds transfer; non-downloadable software for executing and recording financial transactions; non-downloadable software for game development; non-downloadable software for managing and validating transactions involving digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; non-downloadable software for managing and verifying transactions on a blockchain; non-downloadable software for creating and issuing digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; providing non-downloadable software for processing, administering, managing monetary transactions and transactions involving instruments of value; non-downloadable software for providing authentication of parties to a financial transaction; providing non-downloadable software for inventory management, data management, cryptocurrency management, and managing cryptocurrency transactions using distributed ledger technology; non-downloadable

software for the management of cryptographic security of electronic transmissions across computer networks; non-downloadable software for use as a cryptocurrency wallet; non-downloadable software for use as an electronic wallet; providing online non-downloadable software for cryptocurrency exchange; providing non-downloadable software for virtual currency management, namely inventory management, asset management and transaction management for virtual currency, online platform for the transfer and exchange of digital currencies, software as a service (SAAS) featuring software for sending, receiving, buying, selling, trading and exchanging virtual currencies, digital and blockchain assets, software as a service (SAAS) for encrypting and enabling secure transmission of digital information relating to virtual currencies, digital and blockchain assets over the Internet, software as a service (SAAS) featuring software for use in managing portfolios of virtual currencies, digital and blockchain assets; providing non-downloadable software for virtual currency management, namely inventory management, asset management and transaction management for virtual currency, online platform for the transfer and exchange of virtual currencies, software as a service (SAAS) featuring software for sending, receiving, buying, selling, trading and exchanging virtual currencies, digital and blockchain assets, software as a service (SAAS) for encrypting and enabling secure transmission of digital information relating to virtual currencies, digital and blockchain assets over the Internet, software as a service (SAAS) featuring software for use in managing portfolios of virtual currencies, digital and blockchain assets; non-downloadable software for viewing and providing access to digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; providing on-line non-downloadable computer software for use as a cryptocurrency wallet, providing online non-downloadable computer software for creating and generating printable cryptocurrency wallets, providing information featuring technology that enables users to generate printable cryptocurrency wallets via a website; providing on-line non-downloadable computer software for use as a cryptocurrency wallet; providing on-line non-downloadable software for generating cryptographic keys for receiving and spending cryptocurrency; providing technology information in the field of cryptocurrency; providing temporary use of online non-downloadable software for tracking and managing of cryptocurrency, digital currency, electronic cash, and virtual currency; providing temporary use of online non-downloadable software to enable consumers to make, and merchants to accept, payments using cryptocurrency, digital currency and virtual currency; providing temporary use of online non-downloadable software for cryptocurrency, digital currency and virtual currency payment processing and transaction processing; providing temporary use of non-downloadable web-based decentralized applications (DApps) for cryptocurrency trading; providing user

45

authentication services using blockchain-based software technology for cryptocurrency transactions; User authentication services using blockchain technology for cryptocurrency transactions.

(4) Identity verification services; online social networking services for registered users to participate in discussions and form virtual communities in the field of digital asset exchange, namely the exchange of cryptocurrency, digital currencies, virtual currencies, digital tokens, crypto-tokens, utility tokens, non-fungible tokens, digital collectibles and crypto-collectibles; providing authentication services for personal identification information.
