WISE PRODUCT GROUP

Goods (Nice class & Statement)

Classification data (1) Chemical preparations, namely, urethane, liquid waterproofing membrane to maintain, restore and upgrade the performance of roof systems; urethane, liquid waterproofing membrane to maintain, restore and upgrade the performance of roof systems; Urethane coating for waterproofing protection on roof systems; urethane coating for waterproofing protection on roof systems and provide a white reflective surface; roof coating formed primarily of resin with oil and asphalt; acrylic roofing coatings; water-based, pure acrylic, self-curing latex polymer roof coating; liquid coating formed of elastomer for use on roofs, walls, and other building surfaces; solvent-based primer for use in roof systems; polymer /copolymer coating that can be applied to various materials on a wall, floor and ceiling and which coating functions as a gas barrier and enables water vapor to pass through the coating; polymer/copolymer coating that can be applied to various materials on a wall, floor and ceiling and which coating functions as an air barrier; elastomeric roof coatings, acrylic roof coatings; urethane roof coatings; Metal roof flashing; detail metal flashing for use in roof systems; galvanized steel sheet with a laminate of flashing for use in roof systems; metal building products, namely, roof boots; metal roof drains; metal roof vents and breathers; metal roof clamps; metal building materials, namely, roof termination and anchor bars; SBS (styrene-butadiene-styrene rubber) modified base sheet for use as an underlayment layer in a built-up roof system; an asphalt coated, SBS (styrene-butadiene-styrene rubber); liquid rubber composition used to form a synthetic rubber roofing membrane; urethane sealants for waterproofing protection on roof systems; urethane sealants for waterproofing protection on roof systems and provide a white reflective surface; uncured neoprene sheet used in construction of flashing, gutter lining, waterproofing; Roofing membrane for use as the waterproofing and reinforcement layer; rubber modified roofing membrane for use as the waterproofing and reinforcement layer; roofing membrane formed of polyester reinforcing fabric reinforcement, rubber and asphalt; roofing coal tar pitch for use in waterproofing; polyester reinforcing fabric for use in roofing; polyester mat for use in roofing; roof coating formed primarily of asphalt with oil and resin; waterproofing asphalt based coating for roofing; non-aluminized reflective waterproofing asphalt based coating for roofing; coal tar impregnated fiberglass mats used in the construction of a coal tar built-up roof, not for use as load support surfaces; restoration coatings, namely, asphalt-based coatings to weatherproof, preserve and

Disclaimer The classification data is provided for information and searching purposes only. CIPO does not warrant the accuracy of the classes assigned to the trademark. This data has no legal value of any kind.

protect metal, modified bitumen and coal tar pitch roofs; roof coating for waterproofing formed of asphalt, refined coal tar pitch, aromatic solvents and thermoplastic polymers; urethane coating for waterproofing protection on roof systems sold as an integral part of roofing; urethane coating for waterproofing protection on roof systems and provide a white reflective surface sold as an integral part of roofing; modified bitumen reinforced sheet for roofing systems; modified bitumen reinforced sheet for weatherproofing roofing systems; modified bitumen sheet formed of a polymer mat impregnated with modified asphalt; modified bitumen sheet formed of a polymer mat impregnated with modified asphalt and a mineral top coating; modified bitumen sheet formed of a polyester mat impregnated with modified asphalt; modified bitumen sheet formed of a polyester mat impregnated with modified asphalt and a mineral top coating; modified bitumen sheet formed of a fiberglass mat impregnated with modified asphalt; modified bitumen sheet formed of a fiberglass mat impregnated with modified asphalt and rubber; modified bitumen sheet formed of a fiberglass mat impregnated with modified asphalt and rubber and a mineral top coating; modified fiberglass base sheet for use as an underlayment layer in a built-up roof system, not for use as load support surfaces; fiberglass mat impregnated with bitumen and rubber for use in roofing systems not for use as load support surfaces; single-ply synthetic rubber roofing membrane; EPDM (ethylene propylene diene monomer rubber) membrane for use in roof systems; non-metal roof flashing; detail non-metal flashing for use in roof systems; roofing membrane; roofing membrane formed of reinforced polyester knit fabric coated with a polymer compound; non-metal pre-molded and sheet form non-reinforced boots, corner flashing for use in roof systems; vinyl formulated sheet having a ribbed texture for use in roof systems; thermoplastic roofing membrane; polyester reinforced thermoplastic roofing membrane; non-metal trim strips for use in roof systems; non-reinforced thermoplastic polyvinyl chloride based membrane for use in roof systems; PVC roof flashing; reinforced PVC membrane for use in roof systems; non-reinforced thermoplastic polyolefin membrane for use in roof systems; multilayer roof membrane formed of a thermoplastic polyolefin base; polyester-reinforced fabric center, and a thermoplastic polyolefin compounded top layer for use in roofing systems, building construction; thermoplastic polyolefin pressure-sensitive membrane for use in roof systems; non-metal roof drains; non-metal roof vents and breathers; and non-metal building materials, namely, roof termination and anchor bars; non-metal weather strips for buildings; non-metal building products, namely, asphalt roof coatings; bituminous roof coatings; non-metal roof coverings containing acrylic; rubberized asphalt-based roofing primers; roofing base sheets in the nature of roofing fabrics; roof membranes; building material, namely, plastic webbing material used to reinforce bituminous waterproofing sheets, non-metal building flashing; non-metallic roofing base sheets in the nature of roofing fabrics, roof membranes, building

material, namely, plastic webbing material used to reinforce bituminous waterproofing sheets, non-metal building flashing, non-metallic roofing shingles, non-metallic roofing underlayment membrane, non-metal roofing material, namely, a cap sheet and a modified cap sheet with reinforcement material; coal tar impregnated fiberglass mats used in the construction of a coal tar built-up roof, for use as load supports surfaces

- 1 - Chemicals and adhesives
- 2 - Paints, varnishes and lacquers
- 6 - Common metals
- 17 - Rubber and rubber goods
- 19 - Non-metallic building materials
- 27 - Floor coverings
