SUSTAIN

Goods (Nice class & Statement)

- 1 (1) Plastics in the form of pellets; raw plastics in the form of plastics
- 17 (2) Plastics in extruded form for use and manufacture and semi-processed plastic substances; semi-processed plastic substances; recycled plastic pellets; recycled plastics; recycled compound plastics; plastics in the form of films, foils, sheets, boards, rods, slabs, pellets or tubes; plastics materials in the form of moldings and extrusions; industrial films; sealing, packaging and insulating materials; adhesive-coated plastic sheets; plastics in extruded form for use in manufacture, and for use in agriculture and horticulture; plastics sheeting for industrial, agricultural or civil engineering use; plastic sheeting for agricultural use; laminated plastic surface protection materials; packing, padding and stuffing materials of plastics or rubber; semi-processed synthetic resins; silage bale wrap (horticultural).
- 19 (3) Plastics materials for use in building, road-making, civil engineering, construction, namely, building materials of all plastic, construction elements of plastic; building materials of recycled plastic; recycled plastic pellets; expanded plastics for use in building and construction, fiber and reinforced plastic construction materials, roofing materials of plastic; building materials, and prefabricated components (all being non-metallic); windows; doors; stairways; gates of plastic; membranes for roofing; damp proof membranes of synthetic plastic materials; plastic materials for applications in agriculture and horticulture, namely, protective enclosures for horticultural use and plant propagation; expanded plastics for use in construction of agricultural or horticultural structures; films of plastic for agricultural or horticultural structures, field tunnel film, carrot film, green house film, frames (non-metallic) for greenhouses and horticultural structures plastic road building materials (non-metallic); construction membranes; gas protection membranes; films of plastic for use in building; greenhouses made of or including fire-retardant plastic films; transportable buildings (not of metal); transportable non-metallic greenhouses; fire-retardant and fire-proof coatings.

Services (Nice class & Statement)

- 40 (1) Recycling of plastics; processing of plastics; extruding of plastics; treatment and processing of plastics; providing information, advice and consultancy relating to the aforesaid services.
- 41 (2) Education services; provision of training; training

services; arranging, organizing and conducting colloquiums, conferences, exhibitions, workshops, seminars, symposia and training events; publishing services; publication of material in printed or electronic form; computer based library services; library services; research and development services relating to education, training, assessment and testing; preparation of reports relating to education, training, assessment and testing; consultancy, advisory and information services relating to all the aforesaid services.

42

(3) Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software relating to the recycling of plastic and manufacture of plastic products; provision of research facilities; provision of research and scientific center; research and development services; engineering services; custom design services; technical project studies; technical and laboratory research services relating to education, training, assessment and testing; designing and programming of on-line forums for discussion of issues relating to education, training, assessment and testing, technical and scientific consultancy in the field of plastics; design services relating to machinery for production of plastic products and packaging; process engineering; application technology consultancy; product analysis; quality control; technical and scientific project planning; testing (material-); technical development and research, for others; preparation of reports and surveys on scientific development or effect of plastics, recycled plastics and biodegradable plastics; management of projects relating to the scientific development or effect of plastics, recycled plastics and biodegradable plastics; the provision and/or communication of information about, and /or relating to, the scientific development of recycled plastics; the provision of information, guidance and knowledge to assist and/or to enable society, scientists and /or policy makers; environmental testing; preparation of statistics for scientific research purposes; compilation, storage, analysis, retrieval and/or provision of statistical data and statistical information; information, advisory and consultancy services relating to all the aforesaid, including such services provided on-line from a computer database and/or intranets and/or extranets and/or the Internet.

Claims

Priority Filing Date: August 22, 2024, Country or Office: UNITED STATES OF AMERICA, Application No. 98711455 in association with the same kind of goods and in association with the same kind of services
