Vienna information (Code & Description)

5.3.11	Other leaves
A 5.3.13	Stylized leaves
A 5.3.14	One leaf
15.9.1	Electrical equipment
A 15.9.25	Other electrical apparatus
24.1.5	Shields containing other figurative elements or inscriptions
A 24.1.10	Shields containing representations of plants
A 24.1.13	Shields containing other figurative elements
24.1.17	Shields with figurative elements or inscriptions placed outside
A 24.1.20	Shields with figurative elements or inscriptions placed outside in any other way

Goods (Nice class & Statement)

9 (1) Electronic sensors for measuring levels, temperature, humidity, and moisture content of bulk agricultural commodities in storage containers, namely feed bins and grain silos; Internet of Things (IoT) devices, namely, electronic sensors and wireless transceivers for monitoring inventory levels and environmental conditions in agricultural storage bins and silos; Wireless transceivers for transmitting data collected from electronic sensors used in agricultural storage and inventory monitoring; Downloadable computer software and mobile applications for monitoring, analyzing, and managing inventory levels and environmental conditions of bulk agricultural commodities in storage containers; Computer hardware for use in agricultural inventory management systems, namely systems for collecting, processing, and transmitting sensor data from storage bins and silos; Data loggers and telemetry devices for recording and transmitting inventory and environmental data related to agricultural commodities in storage; Electronic monitoring devices for use in agricultural supply chains to track storage levels, usage patterns, and environmental data of bulk commodities; time-of-flight camera sensors for aerial imaging and monitoring of agricultural storage containers and surrounding environments.

Services (Nice class & Statement)

37 (1) Installation, maintenance, and repair of sensor-based monitoring systems for agricultural storage containers; Installation of electronic sensors, time-of-flight camera sensors, and telemetry hardware for use in agricultural inventory management; Maintenance and servicing of electronic monitoring equipment and wireless transmission

42

hardware used in agricultural storage and supply chain systems.

(2) Software as a service (SaaS) featuring software for monitoring and managing inventory levels and environmental conditions of bulk agricultural commodities stored in bins and silos; Providing temporary use of non-downloadable software for collecting, analyzing, and reporting inventory and environmental data in agricultural storage systems; Software as a service (SaaS) featuring software for use in agricultural inventory tracking, supply planning, and storage condition monitoring; Providing temporary use of non-downloadable computer software for monitoring storage levels and environmental parameters in agricultural supply chains; Remote monitoring of data collected by sensors in agricultural storage bins and silos for the purpose of inventory control and supply chain optimization; Technical consulting in the field of cloud-based sensor data management and inventory monitoring software for agricultural storage and supply operations; Technical support and software configuration services for the deployment and integration of sensor-based inventory management platforms in the field of agriculture.
