Information sur les codes de Viennes (Code & Description)

3.13.2 Insectes (excepté 3.13.1), araignées
A 3.13.7 Mouches, moustiques

Produits (Classe de Nice & Énoncé(s))

9 (1) Computer software for mobile delivery of images, photographs, graphics, music, audio books, natural soundscapes, recordings of live events, spoken word recitations, movies, television shows, video games, videos and text messages; computer hardware; portable and handheld electronic computer hardware for electronically transmitting, storing, manipulating, recording, displaying, and reviewing text messages, images, music, audio books, natural soundscapes, recordings of live events, spoken word recitations, movies, television shows, video games, videos, graphics and photographs via Ethernet, global and local computer networks, cellular networks, satellite networks, WIFI networks, and the Internet, and electronic and mechanical structural parts and fittings therefor; computers, tablet computers, electronic book readers, audio and video players, electronic personal organizers, personal digital assistants, and global positioning system electronics navigation devices consisting of computers, computer software, transmitters, receivers and network interface devices, and electronic and mechanical structural parts and fittings therefor; application development computer software programs for social networking, customer relationship management (CRM), electronic mail and messaging, e-commerce transactions, character recognition, telephone call management, development of computer software applications, playing electronic games, book and desktop publishing, and enabling content, namely text messages, music, audio books, natural soundscapes, recordings of live events, spoken word recitations, literary works, graphics, files, documents and electronic works, namely publications, periodicals, books, magazines, newsletters, brochures, booklets, pamphlets, manuals, journals and catalogues, to be downloaded to and accessed on a computer, smart phone and e-reader; application development computer software programs for personal information management, namely, software to enable users to manage their personal file collections, notes, address books, task lists, calendars, reminders, e-mail and instant message archives, and voicemail messages; application development computer software programs for data management in the fields of social networking, customer relationship management (CRM), personal information, electronic mail and messaging, e-commerce transactions, character recognition, telephony, software application development, electronic games, and publishing; computer software development kit consisting of computer software code provided via Ethernet, global

and local computer networks, cellular networks, satellite networks, WIFI networks, and the Internet that can be used for third party development of and the programming and synchronization of audio, visual, and audio-visual recordings for users of personal and handheld computers and mobile digital electronic devices, namely smart phones, electronic book readers, audio and video players, electronic personal organizers, personal digital assistants, and global positioning system electronics navigation devices consisting of computers, computer software, transmitters, receivers and network interface devices; software for developing and publishing third party software applications of all types for interactive use with personal and handheld computers, smart phone, e-reader and mobile digital electronic devices, namely audio and video players, electronic personal organizers, personal digital assistants, and with global positioning system electronics navigation devices consisting of computers, computer software, transmitters, receivers and network interface devices; computer software and hardware for social networking via the Internet; computer software and hardware for customer relationship management (CRM); computer software and hardware for personal information management namely, computer software and hardware to enable users to manage their personal file collections, notes, address books, task lists, calendars, reminders, e-mail and instant message archives, and voicemail messages; computer software and hardware for data management in the fields of social networking, customer relationship management (CRM), personal information, electronic mail and messaging, e-commerce transactions, character recognition, telephony, software application development, electronic games, and publishing; computer software and hardware for electronic mail and messaging; computer software and hardware enabling e-commerce transactions between parties; computer software and hardware for character recognition; computer software and hardware for telephone call management; computer software enabling content, namely text messages, photographs, images, graphics, music, audio books, natural soundscapes, recordings of live events, spoken word recitations, movies, television shows, video games, videos, literary works, files, documents and electronic works to be downloaded to and accessed on a computer and other portable consumer electronic device namely tablet computers, electronic book readers, digital format audio and video players, electronic personal organizers, personal digital assistants, and global positioning system electronics navigation devices consisting of computers, computer software, transmitters, receivers and network interface devices; image scanning software for retail use that provides information about products selected by a user; wearable computer peripherals, namely microphones, earphones, headphones, headsets and smart watches, for activity tracking, electronic games, and management and communication; user interface device software, namely computer user interface software, computer tablet user interface software, handheld mobile device user interface software, graphical user interface

software and UPI (universal peripheral interface) software for use in connection with computers, tablets, and handheld mobile devices, and computer peripherals, all for performing audio and visual recognition of items and products by enabling users to record, scan and photograph music, television shows, movies and physical products within the surrounding environment and obtain information about the said music, television shows, movies and physical products; motion sensitive and interactive computer hardware for capturing and recording human activity information, namely heartrate, distance, steps taken, calories burned, activity level, hours slept, and quality of sleep; motion sensitive and interactive computer hardware for audio and visual recognition of items and products, which enables users to record, scan and photograph music, television shows, movies and physical products within the surrounding environment and obtain information about the said music, television shows, movies and physical products; motion sensitive and interactive computer peripherals, namely cameras for capturing and recording human activity information, namely heartrate, distance, steps taken, calories burned, activity level, hours slept, and quality of sleep; motion sensitive and interactive computer peripherals, namely cameras for audio and visual recognition of items and products, which enables users to record, scan and photograph music, television shows, movies and physical products within the surrounding environment and obtain information about the said music, television shows, movies and physical products; motion sensitive and interactive computer software for capturing and recording human activity information, namely heartrate, distance, steps taken, calories burned, activity level, hours slept, and quality of sleep; motion sensitive and interactive computer software for audio and visual recognition of items and products, namely software which enables users to record, scan and photograph music, television shows, movies and physical products within the surrounding environment and obtain information about the said music, television shows, movies and physical products; virtual and holographic touchscreens for computers, tablet computers, smart phones, electronic book readers, audio and video players, electronic personal organizers, personal digital assistants, and global positioning system electronics navigation devices consisting of computers, computer software, transmitters, receivers and network interface devices; holographic projection system and apparatus comprising computer hardware, software and peripheral devices, namely display screens, all for displaying three dimensional images; computer hardware and software for enabling real-time user interaction with three dimensional images on holographic displays and screens; portable and handheld electronic device accessories, namely, computer, retina display, touchscreen and voice display monitors, keyboards, computer mouse, cable connectors, plug-in connectors, electrical power connectors, computer and electronic docking stations, all specially adapted for use with cell phones, mobile computers, tablet computers, and electronic book readers; battery chargers for cell

phones, mobile computers, tablet computers, and electronic book readers; battery packs for cell phones, mobile computers, tablet computers, and electronic book readers; electronic memory card readers; cases, covers, and stands, all specially adapted for use with cell phones, mobile computers, tablet computers, and electronic book readers; headphones and earphones, speakers, microphones, and headsets; accessories namely, monitors, displays, keyboards, mouse, wires, cables, modems, disk drives, computer network adapters, computer network adapter cards, cable connectors, plug-in connectors, electrical power connectors, docking stations, charging stations, drives, battery chargers, battery packs, blank computer memory cards, blank Secure Digital memory cards, blank compact flash memory cards and memory card readers, cases, covers, and stands, all for computers and portable and handheld electronic devices, namely cell phones, mobile computers, tablet computers, and electronic book readers; computer hardware and peripherals for remotely accessing and transmitting third-party selected and third-party generated data to facilitate integrated telephone communication with computerized global information networks; optical character recognition software; image recognition and matching software, namely software for detecting and identifying places, people, objects and features in digital images and videos

9

(2) Computer software for mobile delivery of images, photographs, graphics, music, audio books, natural soundscapes, recordings of live events, spoken word recitations, movies, television shows, video games, videos and text messages; image scanning software for retail use that provides information about products selected by a user; user interface device software, namely computer user interface software, computer tablet user interface software, handheld mobile device user interface software and graphical user interface software for use in connection with computers, tablets, and handheld mobile devices, all for performing audio and visual recognition of items and products by enabling users to record, scan and photograph music, television shows, movies and physical products within the surrounding environment and obtain information about the said music, television shows, movies and physical products; motion sensitive and interactive computer software for capturing and recording human activity information, namely heartrate, distance, steps taken, calories burned, activity level, hours slept, and quality of sleep; motion sensitive and interactive computer software for audio and visual recognition of items and products, namely software which enables users to record, scan and photograph music, television shows, movies and physical products within the surrounding environment and obtain information about the said music, television shows, movies and physical products; optical character recognition software; image recognition and matching software, namely software for detecting and identifying places, people, objects and features in digital images and videos

Services (Classe de Nice & Énoncé(s))

- 35 (1) On-line retail department store services featuring a wide variety of consumer goods of others and electronic publications, music, movies, and periodicals; providing an on-line commercial information directory featuring a wide variety of consumer goods of others on the Internet; dissemination of advertising for others via the Internet; providing a searchable on-line advertising guide featuring the goods and services of others; computerized database management services; on-line ordering services featuring a wide variety of consumer goods of others, namely car audio electronics, home entertainment electronics, computer hardware, e-readers, tablets, phones, set-top boxes, cameras, electronic home automation systems, office supplies, CDs, DVDs, computer software, books, automotive supplies, industrial cleaning supplies, industrial abrasives, welding equipment, jewelry, clothing, shoes, games, toys, sporting goods, hand tools, power tools, garden supplies, household cleaning supplies, general purpose batteries, toilet paper, paper towels, laundry detergent, laundry baskets, food storage containers, baby goods, beauty supplies, over the counter medications, feminine care products, first aid products, heart rate monitors, bathroom scales, groceries, pet supplies, art, art and craft supplies, home furnishings, bed and bath linens, pillows, bathroom accessories, lighting fixtures, kitchen and bath fixtures, and electronic publications, music, movies, and periodicals
- 35 (2) Providing an on-line commercial information directory featuring a wide variety of consumer goods of others on the Internet; providing a searchable on-line advertising guide featuring the goods and services of other vendors;
- 38 (3) Communication services, namely, facilitating transmitting, receiving, streaming, and broadcasting, text messages, digital images, music, audio books, natural soundscapes, recordings of live events, spoken word recitations, movies, television shows, video games, videos and graphics via global computer networks to users of e-readers, mobile phones, smart phones, portable electronic devices and portable digital devices, namely digital format audio and video players, electronic personal organizers, personal digital assistants, tablets, computers, TVs, TV receivers, computer game machines, and of global positioning system electronics navigation devices consisting of computers, computer software, transmitters, receivers and network interface devices; streaming of audio, visual and audiovisual material, namely music, movies, television shows, music videos, news and sports webcasts for others via Ethernet, global and local computer networks, cellular networks, satellite networks, WIFI networks, and the Internet; online chat rooms and online communities for the transmission of messages among computer users featuring subject matter on a wide range of topics of general interest, as selected by users; providing access to online directories, databases, current events websites and blogs, and on-line reference materials featuring subject matter on a wide range of topics of general interest, as selected by users; providing

access to electronic devices in the nature of providing access to the Internet and wireless networks for the transfer of digital still images and moving pictures, text messages, music, audio books, digital recordings of natural soundscapes, digital recordings of live events, spoken word recitations, movies, television shows, video games, videos and graphics, amongst users of e-readers, mobile phones, smart phones, portable electronic devices and portable digital devices, namely digital format audio and video players, electronic personal organizers, personal digital assistants, and global positioning system electronics navigation devices consisting of computers, computer software, transmitters, receivers and network interface devices, tablets, computers, TVs, TV receivers, and computer game machines, all via Ethernet, global and local computer networks, cellular networks, satellite networks, WIFI networks, and the Internet; providing online chat rooms, internet forums and online communities for the transmission of photos, videos, text, graphics, and digital still images and moving pictures; transmission of podcasts via the Internet in the field education and entertainment, namely, movies, television shows, audiovisual works, music, audio works, books, theatrical works, literary works, sporting events, recreational activities, leisure activities in the nature of hobbies, tournaments, art, dance, musicals, culture, sporting and current event exhibitions, sports instruction, clubs, radio programs, comedy, drama, contests, visual works of art, games, gaming, festivals, museums, parks, cultural events, concerts, desktop publishing, animation, current events, and fashion shows; transmission of webcasts via the Internet in the field of education and entertainment, namely, movies, television shows, audiovisual works, music, audio works, books, theatrical works, literary works, sporting events, recreational activities, leisure activities in the nature of hobbies, tournaments, art, dance, musicals, culture, sporting and current event exhibitions, sports instruction, clubs, radio programs, comedy, drama, contests, visual works of art, games, gaming, festivals, museums, parks, cultural events, concerts, desktop publishing, animation, current events, and fashion shows; Internet and wireless broadcasting services of audio and video programming on a variety of topics in the fields of education and entertainment, namely, movies, television shows, audiovisual works, music, audio works, books, theatrical works, literary works, sporting events, recreational activities, leisure activities in the nature of hobbies, tournaments, art, dance, musicals, culture, sporting and current event exhibitions, sports instruction, clubs, radio programs, comedy, drama, contests, visual works of art, games, gaming, festivals, museums, parks, cultural events, concerts, desktop publishing, animation, current events, and fashion shows;

- 39 (4) Storage of electronic media, namely, images, text, video, and audio data;
- 39 (5) Electronic storage of electronic media, namely, images and text data;
- 41 (6) Entertainment services, namely, providing temporary use of non-downloadable video games, music, videos, TV,

photographs, and movies to users of computers, televisions (TVs), TV receivers, computer game machines, and portable electronic devices via wired and wireless networks; education and entertainment services, namely, providing on-line portals and a website featuring online non-downloadable content in the field of education and entertainment, namely, movies, television shows, audiovisual works, music, audio works, books, theatrical works, literary works, sporting events, recreational activities, leisure activities in the nature of hobbies, tournaments, art, dance, musicals, culture, sporting and current event exhibitions, sports instruction, clubs, radio programs, comedy, drama, contests, visual works of art, games, gaming, festivals, museums, parks, cultural events, concerts, desktop publishing, animation, current events, fashion shows, and multimedia presentations; providing information, news and commentary in the field of current events topics of general interest;

(7) Cloud computing video hosting web sites; cloud computing web hosting services; Application service provider (ASP), namely, online hosting of computer software applications of others; online hosting of third party content, namely photos, videos, text, data, images, and web sites; online hosting of digital content on global computer networks, wireless networks, and electronic communications networks; providing temporary use of on-line non-downloadable software for mobile content delivery, for image recognition, and for real-time user interaction with digital content on holographic displays and screens; Software as a Service (SaaS) namely software for use in connection with audio, video and digital content, namely software for social networking, customer relationship management (CRM), personal information management, personal data management, electronic mail and messaging, facilitating e-commerce transactions, character recognition, telephony management, development of computer software applications, playing electronic games, book and desktop publishing, and enabling content, namely text messages, music, audio books, natural soundscapes, recordings of live events, spoken word recitations, literary works, graphics, files, documents and electronic works to be downloaded to and accessed on a computer and other portable consumer electronic device, namely smart phones, tablet computers, electronic book readers, audio and video players, electronic personal organizers, personal digital assistants, and global positioning system electronics navigation devices consisting of computers, computer software, transmitters, receivers and network interface devices; providing a website and portal that gives computer users the ability to transmit, cache, receive, download, stream, broadcast, display, format, transfer and share their own content, namely text, visual works, audio works, audiovisual works, literary works, graphics, files, documents and electronic works; providing temporary use of on-line non-downloadable software featuring on-line network services that enable users to access, publish, and share text, visual works, audio works, audiovisual works, literary works, graphics, files, documents and electronic

45

works; computer services, namely, creating an on-line community featuring technology that enables users to communicate and interact with others, participate in discussions, and share their own content, namely photos, videos, text, graphics, digital still images and moving pictures, and other electronic works, namely publications, periodicals, books, magazines, newsletters, brochures, booklets, pamphlets, manuals, journals and catalogues, and to engage in social networking; creating an online community for users to participate in discussions, obtain feedback, and form virtual communities; maintenance and updating of software and hardware in the field of computer, Internet and password security; design and development of computer software; computer software installation and maintenance; computer software, application, and network consulting services; technical support in the nature of troubleshooting, namely, diagnosing computer hardware and software problems; providing a website featuring technical information in the field of computer software and hardware; computer hardware, software, application, and network consulting services; computer consulting in the field of configuration management for portable and handheld electronic devices; technical support in the nature of troubleshooting, namely, diagnosing computer hardware and software problems; and computer programming;

(8) Introduction, personal relationship, and social networking services; on-line social networking services, namely, facilitating social introductions or interactions among individuals; on-line social networking services designed for people with a common desire to meet other people with similar interests; monitoring of data and computer systems and networks for others for security purposes; providing on-line computer databases and on-line searchable databases in the field of social networking; providing an online social networking website for entertainment purposes; providing searchable databases in the field of social networking; computer services, namely, enabling access to social networking services in the field of consumer products, reviews and ratings.

Revendication(s)

Priority Filing Date: September 18, 2014, Country or Office: UNITED STATES OF AMERICA, Application No. 86399530 in association with the same kind of goods and in association with the same kind of services Used in UNITED STATES OF AMERICA on goods (2) and on services (2),(5)
 Registered in or for UNITED STATES OF AMERICA on July 03, 2018, under No. 5,508,994 on goods (2) and on services (2),(5)
 Proposed Use in CANADA on goods (1) and on services (1),(3),(4),(6),(7), (8)
