Information sur les codes de Viennes (Code & Description)

26.3.23	Lignes ou bandes formant un angle -- Note: Y compris les chevrons et les pointes de flèches formées par des lignes ou des bandes.
26.11.1	Une ligne ou une bande
A 26.11.8	Lignes ou bandes horizontales
A 26.11.10	Lignes ou bandes droites
27.5.1	Lettres présentant un graphisme spécial
A 27.5.11	Lettres soulignées, surlignées, encadrées ou barrées d'un ou de plusieurs traits

Produits (Classe de Nice & Énoncé(s))

6	(1) Metal goods; access and working platforms; handrails for walkways; barrier apparatus in the nature of posts and guard rails; Building materials, namely, aluminum faced modular panel wall and slab form system for the use in poured-in-place concrete structures; Building materials, namely, metal modular panels and joints used as molds for forming walls, slabs, stairs, columns, windows, and doors in poured-in-place concrete structures; chains; Concrete shoring, form shoring and supporting equipment, namely, metal forms, fittings, parts and accessories for concrete forming equipment and apparatus, all of metal, namely, beams, girders, trusses, stringers, braces, extension legs, strongbacks, stiffbacks, walers, strongback shoes, tie-bolts, clamps, casters, rollers, bolts, nuts, pins, clips, bracing lugs, splices, tieplates, chord fillers, hangars, wall jacks, safety barriers, brace and plumb brackets, wall plumbing devices, catwalks, catwalk brackets, ledgers, knee braces, outriggers, wall forms, pan forms, column forms, beam forms, spandrel forms, tunnel forms and lifting slings; Construction hardware made of metal, namely, connecting and supporting nodes for connecting parts of suspended access systems and work platforms; cover plates; fences; Forming and shoring equipment for concrete construction; formwork and shoring; hoarding panels; Interior and exterior scaffolds; ladders; manhole covers; Mast climbers systems consisting of single, twin or multiple vertical masts of metal to which an elevating work platform is coupled; Metal building materials and metal building tools, namely, scaffolding, metal interior and exterior shutters, formwork in the nature of scaffolding; Metal modular scaffolding, and metal components for use therefore, namely, standards, braces, ledgers, girders, brackets, base collars, screw jacks, swivel bases and locking pins; metal prefabricated platforms; metal rolling towers; Metal scaffolding; Metal scaffolding and parts therefore; Metal scaffolding and shoring, namely, sectional
---	---

tubular scaffolding, systems tubular scaffolding, tube and clamp tubular scaffolding and shoring; metal shoring, namely, metal beams and metal panels for use in supporting formwork and beams while building, renovating or repairing structures; structural parts of metal scaffolds, namely, metal rolling towers, metal work platforms and metal work stages; Metal scaffolds; metal scaffolds and metal shores; metal seating system comprised of metal bleachers, metal grandstands and metal chair risers; Metal shoring systems, namely, beams, panels, bracing frames, and beam mounting fixtures; Metal shoring to provide support for such things as formwork and beams while building, renovating or repairing structures; metal shoring, namely, metal beams and metal panels for use in supporting formwork and beams while building, renovating or repairing structures; modular metal shoring and parts therefore; panels and forms for pouring concrete; platform scaffolding for use with staging; Portable metal scaffolding; Prefabricated elevated work platforms of metal; prefabricated metal work platforms; prefabricated scaffolding; Prefabricated suspended work platforms of metal; roof supports in the nature of beams; roofing tiles and panels; scaffold towers; shoring scaffolding and accessories thereto; shores; spandecks in the nature of formwork panels; steel planks; Structural devices, namely, steel girders, steel supports and steel beams for refurbishing underneath bridges; structural parts of metal scaffolds, namely, metal rolling towers, metal work platforms and metal work stages; Suspended access system for making supports in the nature of ramps and platforms and consisting primarily of structural support devices, namely, steel girders, supports, beams, joists, connecting and support nodes, pins, deck supports, beam clamps, chains, decking, guardrails and toe boards, and parts thereof, for personnel access, event, construction, refurbishing, maintenance and repair purposes; temporary metal flooring; temporary roadway in the nature of metal panels to be placed on roadways under construction; tool boxes; trench sheeting panels; trenching struts; trestles; tripods; Work platform with vertical access lift equipment including motor, namely, elevating or lifting work platforms

7

(2) Machinery; Construction hoists; elevating transport platform for lifting people and goods; elevators; Hoists; Mast climber systems consisting of an elevating work platform to be coupled to a single, twin or multiple vertical masts of metal; Mechanized personnel lift systems for use with building construction, maintenance and repair, comprised of power swings, lift chairs and outrigger wire hoists; scaffold hoists; work platforms with vertical access lift equipment including motors, namely, elevating or lifting work platforms

9

(3) Safety; computer software for tracking scaffolds; Computer software used in the scaffolding industry for design and estimation; computer software used in the scaffolding industry for tracking inventory, labor and costs; computer software used in the scaffolding industry for training in the areas of scaffolding erection, use and dismantling, and related safety issues; video recordings, CDs and DVDs relating to scaffolding erection, use and

- dismantling, and related safety issues; Safety barriers, fences, and screens for securing site boundaries and catching falling debris for edge protection in the construction industry; Self-climbing systems for lifting formwork for concrete construction
- 19 (4) Non-metallic building materials; access and working platforms; barrier apparatus in the nature of posts and guard rails; chains; cover plates; fences; Forms for pouring concrete; handrails for walkways; hoarding panels; ladders; manhole covers; Non-metal building materials and non-metal building tools, namely, scaffolding, non-metal interior and exterior shutters, formwork in the nature of scaffolding; scaffold towers; shores; panels and forms for pouring concrete; platform scaffolding for use with staging; prefabricated elevated work platforms, not of metal; Prefabricated suspended work platforms, not of metal; roof supports in the nature of beams; roofing tiles and panels; Scaffolding and shoring, namely, sectional tubular scaffolding, systems tubular scaffolding, tube and clamp tubular scaffolding and shoring; spandecks in the nature of formwork panels; temporary non-metal flooring; temporary roadway in the nature of non-metal panels to be placed on roadways under construction; tool boxes; trench sheeting panels; trenching struts; trestles; tripods
- 20 (5) Furniture; Seating, namely, bleachers, grandstands, and chair risers; Scaffolds, platform stages, and related equipment for use in construction projects, namely, shuttering, trestles, tripods, ladders, ladder brackets, ladder hoods, platform steps, slatted boarding, and tarpaulins

Services (Classe de Nice & Énoncé(s))

- 37 (1) Building construction and repair; application of coatings and sealers; application of protective coatings; Building construction and repair in the poured-in-place concrete industry; Building construction services; building demolition; Building maintenance and repair; Cleaning of external surfaces of buildings and structures; cleaning, installation, repair and maintenance of storage tanks and containment vessels; Concrete pouring and forming for buildings and other commercial or public concrete structures; construction and repair services, namely, erection of enclosures surrounding scaffolding and shoring used for construction, refinishing and maintenance of structures; Construction consultation; construction consultation in the field of bolting and bolt torqueing; Construction management supervision in the construction of scaffolding; construction of buildings; construction of facilities and structures in the fields of oil and gas, chemicals, power, mining, and wastewater treatment; construction of pipeline booster stations for gas pipelines; construction planning; construction project management services; Construction services in the field of application of paint, coatings and resins, namely, specialized industrial painting contractor services and application of specialized coatings and resin sealers for large-scale industrial site surface preparations, oil field, gas, shipyard and marine

facilities; construction services in the field of industrial facilities insulation services, namely, installation, maintenance and removal of thermal and cryogenic insulating materials at refinery, petrochemical and power-generation facilities, and marine and off-shore facilities; construction services in the field of refractory services, namely, installation, repair, and maintenance of refractory linings in high temperature vessels, particularly fluid catalytic cracking units, reformers, hydro crackers, crude units, thermal reactors, boilers, sulfur recovery units, and industrial furnaces; Construction services, namely, excavation, site preparation, leveling, backfill, grading, soil replacement and sand cushion services; Construction services, namely, installation, repair and maintenance of cathodic protection systems; Construction services, namely, installation, structural restoration, and repair of industrial structures; construction services, namely, asbestos removal services at refinery, petrochemical and power-generation facilities, and marine and off-shore facilities; Construction services, namely, concrete pouring, forming and shoring for large-scale concrete industrial, commercial or public buildings and structures; construction services, namely, earthwork and site preparation, structural steel installation, installation of piping for industrial purposes, installing mechanical systems, installing electrical systems and instrumentation; construction services, namely, erection, repair and dismantlement of bleachers, stadium and theater seating, staging, barricades, turnstiles and ramps, t.v. towers and chair risers; Construction services, namely, lead removal services at refinery, petrochemical, power-generation facilities, and marine and off-shore facilities; construction services, namely, machinery retrofit and conversion services to incorporate new technology into machinery; construction, maintenance, and renovation of construction project facilities property; consultation relating to painting of buildings; consultation services, namely, consulting to review construction processes from start to finish during pre-construction phase to identify obstacles before a project is actually built to reduce or prevent errors, delays, and cost overruns; Contractor services in the field of application of paint, coatings and resins, namely, application of coatings, paint and resin sealers to marine vessels, hull surfaces, above ground storage tanks, and drilling equipment and risers located on marine equipment; Contractor services, namely, application of protective coatings for preventing corrosion under insulation in petrochemical facilities and chemical plants, application of protective thermal spray coatings; covering, coating, and maintenance of pipelines for oil; custom construction of construction project facilities; demolition services, namely, demolition of refractory linings in high temperature vessels, namely, structures and industrial operating or processing vessels; dismantling and demolishing services; electrical contractor services; electrical repairs, maintenance, and installation of electrical wiring, outlets, light fixtures, and electrical panels; erection and dismantling of construction elements in the nature of shoring; fire proofing of building and structures;

fireproofing services, namely, application of fire retardant and resistant coatings and materials to buildings and structures; Fireproofing services, namely, application of fire retardant and resistant coatings and materials to large-scale industrial and commercial buildings and structures in the nature of buildings; formwork rental services; general construction contracting; Installation of aluminum faced modular panel wall and slab form system for the use in poured-in-place concrete structures; Installation of building insulation; installation of cladding on buildings, equipment and piping; Installation of building scaffolds, working platforms and building platforms; installation of electric and steam heat control tracing; installation of electric and steam heat control tracing; all of the foregoing in the field of infrastructure for the oil and gas, energy, chemicals, power, mining, and wastewater treatment industries; installation of electrical and generating machinery; installation of electrical wiring, equipment, and instrumentation; Installation of insulation, cladding and jacketing for boilers, ducting and piping at refinery, petrochemical and power generation facilities, and marine and offshore facilities; Installation of metal modular panels and joints used as molds for forming walls, slabs, stairs, columns, windows, and doors in poured-in-place concrete structures; installation of piping; installation, maintenance and repair of protective coatings for floors; lead abatement services, namely, cleaning, removal, and waste disposal of lead and lead based products; Leasing construction equipment; leasing concrete forming equipment and apparatus for use in the construction industry; leasing concrete shoring, form shoring and supporting equipment and apparatus for use in the construction industry; Leasing of construction equipment; Leasing of forming and shoring equipment for concrete construction; Leasing of safety barriers for edge protection in the construction industry; Leasing of scaffolding; Leasing of self-climbing systems for lifting formwork for concrete construction; mechanical contractor services; painting and applying coatings to industrial and commercial buildings and structures; painting and applying coatings to industrial machinery; painting; pipe laying services; pipeline construction and maintenance; pipeline installation and repair; providing construction services, namely, building and foundation construction, construction planning, and general construction contracting; remodeling of industrial facilities for the purpose of incorporating new technology therein; removal of rust, paint, and resins from industrial structures and equipment; Rental of concrete forming and shoring equipment; rental of construction elements in the nature of shoring; Rental, assembly, erection and dismantling services for suspended access system and structural support devices; rental, erection and dismantling services for suspended access system and structural support devices; repair and maintenance of building scaffolds, working platforms and building platforms; scaffolding erection and dismantling services; scaffolding erection; scaffolding installation management services; Scaffolding rental services; Scaffolding services, namely, scaffolding erection, dismantlement and rental; shoring erection and

- dismantling services; shoring rental services
- 40 (2) Treatment of materials; Abrasive blasting services, namely, robotic sand blasting and sand blasting for large-scale industrial facilities, refinery, petrochemical and power-generation facilities, and marine and offshore facilities; bead blasting; bristle blasting; custom fabrication of piping for industrial purposes in the fields of oil and gas, chemicals, power, mining, and wastewater treatment; custom fabrication of piping for industrial purposes of pipelines, pipeline booster stations for gas pipelines, gas storage facilities, liquefied natural gas storage facilities in the nature of liquefied natural gas terminals, and chemical plants; Custom manufacture of components for industrial insulation; custom manufacture of general product lines in the field of steel pipe and tubing; Demolition services, namely, demolition of refractory linings in high temperature vessels; dry ice blasting; fireproofing of buildings and machinery; Fireproofing of electrical systems; hydro-blasting; Machine shop services, namely, machining parts for others through pipe cutting and pipe beveling at industrial and commercial facilities; micro-abrasive blasting; Pipe tapping services, namely, drilling or cutting holes in or connecting to existing piping or pressurized vessels without draining or spilling the contents of the pipes or vessel; rapid arc welding; Sand blasting; Sandblasting services; wet abrasive blasting; wheel blasting
- 41 (3) Education services; conducting group courses and seminars in the field of scaffolding erection, maintenance and safety; conducting group courses and seminars in the field of scaffolding erection, maintenance and safety; educational services, namely, conducting training programs in the erection and dismantling of suspended access system and structural support devices; Educational services, namely, conducting programs in the field of safety in the construction industry; Educational services, namely, conducting training programs in the erection and dismantling of suspended access system and structural support devices; educational services, namely, training services in the field of scaffolding erection, use and dismantling, and related safety issues; providing on-line downloadable publications in the nature of product brochures, instruction manuals, safety guidelines, technical data guides and brochures and pamphlets relating to customer testimonials, all in the field of scaffolding and shoring; training services in the field of safety in the construction industry
- 42 (4) Engineering; Software; Civil engineering; Civil engineering in the concrete construction industry; civil engineering of underground utilities, pipelines, and water treatment systems; Civil engineering, namely, engineering formwork for concrete-formed structures; construction engineering services in the fields of traffic; consulting in the field of mechanical engineering; custom design and engineering of facilities in the fields of oil and gas, chemicals, power, mining, and wastewater treatment; design of piping for industrial purposes; Engineering and design of forming and shoring equipment and systems; engineering and design of special event scaffolding,

namely, grandstands and aluminum bleachers, barricades, stages and turnstiles; engineering and design of work access and scaffolding equipment and systems; engineering construction services in the fields of oil and gas, chemicals, power, mining, and wastewater treatment; Engineering custom formwork for concrete forming of bridges, transportation tunnels, mine tunnels, piers, dams, seawalls, tidal barriers, river-diversion structures, power plants, water-treatment facilities, water-retention facilities, and commercial and industrial buildings; engineering of industrial facilities; Engineering services for the construction of water treatment and purification plants, solid waste treatment plants and other municipal infrastructure and building facilities; engineering services, namely, engineering of suspended access devices and systems; Forensic engineering services; Industrial analysis and research in the field of poured-in-place concrete structures; Inspections of petrochemical facilities and chemical plants for corrosion under insulation; Insulation system design services for industrial and commercial buildings and structures; Leak detection and repair services; mechanical engineering; Providing temporary use of a web-based software application featuring a scaffold tracking system for project planning, management and budgeting; safety auditing to improve safety of construction workers on construction sites; scaffolding design; scaffolding engineering services; Scientific and technological services, namely, scientific research and analysis in the field of poured-in-place concrete structures and design relating thereto; Steam and electrical heat tracing services

Revendication(s)

Used in CANADA since at least as early as December 22, 2017
 Priority Filing Date: June 22, 2017, Country or Office: UNITED STATES OF AMERICA, Application No. 87/500952 in association with the same kind of goods and in association with the same kind of services
 Used in UNITED STATES OF AMERICA
 Filed in UNITED STATES OF AMERICA on June 22, 2017, under No. 87 /500952
