Rubriques d'index

VITRO MASTER DIAGNÓSTICA
DIAGNOSTIC

Information sur les codes de Viennes (Code & Description)

1.13.1	Sphères armillaires, planétariums, orbites astronomiques, schémas d'atomes, schémas de molécules
A 1.13.15	Schémas atomiques, schémas de molécules, représentations de cellules humaines, animales ou végétales, images de bactéries ou de virus, hélices d'ADN
26.4.2	Rectangles
A 26.4.5	Un quadrilatère
26.4.4	Autres parallélogrammes, trapèzes et quadrilatères irréguliers, quadrilatères avec un ou plusieurs coins arrondis
A 26.4.16	Quadrilatères contenant d'autres éléments figuratifs
A 26.4.24	Quadrilatères avec surface ou partie de la surface foncée
A 26.4.14	Quadrilatères contenant la représentation d'êtres humains ou de parties du corps humain
29.1.6	Blanc, gris, argent
29.1.4	Bleu
29.1.3	Vert

Revendication de couleur

Colour is claimed as a feature of the trademark. The word "vitro" is in grey. The words "master diagnostica" are in blue, as is the center portion of the logo resembling DNA or a zipper. The remainder of the logo (left and right portions) is Green.

Traduction des caractères étrangers

The translation provided by the applicant of the word(s) VITRO MASTER DIAGNOSTICA is VITRO DIAGNOSTIC MASTER.

Produits (Classe de Nice & Énoncé(s))

- (1) Reagents for medical research; reagents for scientific use; reagents intended for science; diagnostic reagents for scientific use; laboratory reagents for scientific use; chemical reagents for non-medical purposes; reagents for determining blood groups, except for medical use; diagnostic reagents, except for medical or veterinary use; chemical reagents for molecular biology, other than for medical or veterinary use; diagnostic reagents for use in vitro in biochemistry, clinical chemistry and microbiology; chemical products for use in pathology [other than medical or veterinary].
- (2) Reagents for veterinary diagnosis; reagents for medical use; chemical reagents for medical use; medical reagents for clinical use; immunoassay reagents for medical use; diagnostic reagents for medical use; reagents for chemical analyses [for veterinary purposes];

Documents

[Afficher les documents](#)

- reagents for clinical analyses for medical use; chemical diagnostic reagents for medical use; reagents for use with analyzers for medical purposes; reagents for diagnostic tests [for veterinary purposes]; reagents for use in medical genetic testing; reagents and media for medical and veterinary diagnostic purposes; diagnostic testing materials for medical use.
- 9 (3) Apparatus for scientific and laboratory research, educational apparatus and simulators; scientific apparatus and instruments; research apparatus and instruments; laboratory apparatus and instruments; biochips; software; scientific software; software applications for mobile telephones; optical apparatus for laboratories; centrifuges for use in laboratories; apparatus for fermentation [laboratory apparatus]; incubators for use in laboratories; gasifiers for use in laboratories; laboratory instruments [other than for medical use]; laminar flow hoods for use in laboratories; vacuum distillation apparatus for use in laboratories; incubation plates for scientific use or for use in laboratories; incubation dishes for scientific or laboratory use; apparatus for cell culture for use in laboratories; volumetric analysis cells; devices for testing and quality control; anaerobic chambers for use in laboratories or for scientific use; chromatography apparatus for use in laboratories or for scientific use; laboratory instruments for detecting pathogens and toxins in biological samples for research; integrated software packages for use in laboratory automation; devices for analyzing the sequence of proteins used as laboratory apparatus; laboratory research analyzers for measuring, testing and analyzing blood and other bodily fluids; computer programs (downloadable software); recorded computer operating programs; software (recorded programs); Anatomical pathology laboratory management software; downloadable publications; electronic publications recorded on computer media; mobile applications.
- 10 (4) Surgical apparatus and instruments; medical apparatus and instruments; substance analysis apparatus [for medical use]; testing apparatus for medical use; apparatus for DNA and RNA testing for medical use; instruments for medical analysis; diagnostic apparatus for medical use; equipment for diagnosis, examination and monitoring; tools for medical diagnosis; medical diagnostic instruments.

Services (Classe de Nice & Énoncé(s))

- 42 (1) Provision of quality control services; computer software development services; software design and development; technological and chemical research; research and development of new products; research and development in the field of biotechnology; research laboratory; collection of scientific information; advisory services relating to science; blood testing services for scientific research; laboratory testing services; analysis in the field of molecular biology; research and development of new products for others; inspection and exploration services; measurement evaluation services; analytical laboratory

44 services; laboratory services for analytical tests; scientific laboratory services; Chemical research and analysis services; scientific and technological services, as well as associated research and design services; industrial analysis and research services.
 (2) Medical services; pathology services; advice relating to genetics; health care services; professional consulting in the field of health; medical laboratory services for the analysis of samples taken from patients.

Revendication(s)

Priority Filing Date: June 14, 2021, Country or Office: EUIPO (EU), Application No. 018492304 in association with the same kind of goods and in association with the same kind of services
