PLANA
FLAT

Traduction des caractères étrangers

The translation provided by the applicant of the Spanish word(s) Plana is Flat.

Produits (Classe de Nice & Énoncé(s))

- 9 (1) Computer programs (cad/cam) recorded on software designed for use in construction and automated manufacturing; computer software for creating 3d virtual reality plans, models, and technical specifications for use in construction and architectural design; downloadable computer software for building information modelling (BIM) and building construction management; downloadable mobile applications for requesting renovation services, namely, obtaining quotes and repairs, scheduling service appointments and receiving service reminders; downloadable software application that applies artificial intelligence programming for use in automation of machines for building construction; downloadable software applications using artificial intelligence to assist in construction project management
- 9 (2) Downloadable computer application software and computer software for designing, planning, automating, and managing in the fields of building and construction; downloadable computer application software and computer software for identifying and mitigating risks in the fields of building and construction; downloadable computer application software and computer software for providing design information and advice in the field of building and construction; downloadable computer application software and computer software to plan, optimise and implement building and construction services including localisation, diagnostics, prognostics and construction project management applications;

Services (Classe de Nice & Énoncé(s))

- 35 (1) Association, advisory and membership services for promoting the interests of professionals and trade contractors in the residential construction industry; business intermediary services relating to the field of construction; business project management services for construction projects; providing information in the field of business research services for building automation and building design
- 36 (2) Arranging finance for construction projects; estimating construction costs; estimating home improvement costs; financial management of building renovation projects; financial planning services in the field of building projects;

- providing financial information in the field of building, renovation, and construction
- 37 (3) Advisory services relating to the construction of buildings; commercial building construction consultation; construction project management services; consultancy services relating to the construction of buildings; consultation in the development and construction of commercial real estate; consultation in the development and construction of offices; consultation on the construction of commercial properties; consulting in the field of commercial construction and renovation; consulting in the field of deck and patio construction, renovation, repair and maintenance; consulting in the field of general building and infrastructure contractor service; consulting in the field of residential renovation; information concerning rental of equipment for building construction; project management in the field of building construction; project management in the field of deck and patio construction, renovation, repair and maintenance; project management in the field of residential and commercial construction and renovation; project management services in the field of building construction and renovation; providing information in the field of deck and patio construction, renovation, repair and maintenance via a website; providing information in the field of home renovations via a website; providing information in the field of residential and commercial construction and renovation via a website; providing information on building construction and repair; providing information on building maintenance and repair; providing information on house building and repair; providing information relating to building renovation; providing non-downloadable computer software to allow users to access information in the field of residential construction and home renovation; residential and building construction consulting; supervising and managing building construction and site development; supervision of building construction
- 41 (4) Providing educational information in the field of residential home construction, building and renovation
- 42 (5) Advisory services relating to industrial engineering; advisory services relating to interior design; architectural consultancy; architectural design services; building optimization, namely, development and programming of control programs for automated measurement, assembly and adjustment in building construction; construction planning; construction project engineering; construction project engineering consulting; consulting services in the fields of environmental compliance and permitting; customized development of computer software for use in construction and automated manufacturing; deck and patio construction planning; design, planning and engineering in the field of building construction; development of computer programs recorded on software designed for use in construction and automated manufacturing (cad/cam); drafting of construction plans for recreation premises; drafting of deck and patio construction plans; engineering coordination, contract administration and construction in the field of building construction; environmental permitting services, namely,

	obtaining government environmental permits for development projects; exterior design services for residential home construction and renovation; industrial design services; land surveying; lidar scanning, 3d photometric scanning, x-ray scanning for use in construction industry; providing information in the field of architectural construction via a website; providing online, non-downloadable software for generating multi-dimensional renderings of home building materials to assist with purchasing decisions; providing temporary use of on-line non-downloadable software for requesting renovation services, namely, obtaining quotes and repairs, scheduling service appointments and receiving service reminders; software as a service (SaaS) provider featuring operating software for digital messaging live chat services; software as a service (SaaS) provider featuring operating software for instant messaging and email messages; software as a service (SAAS) provider featuring software for interactive online chat and messaging; structural engineering service; technical project studies in the field of construction; topographic survey
42	(6) Civil engineering construction planning services; Software as a service (SAAS) services, namely, hosting software for use by others for use in the construction industry for contract bidding, purchasing, job costing, accounting, scheduling, estimating, and document management; advisory and consultancy services in the fields of computer hardware and software design, industrial design, and the use of computers and computer software for building and construction projects; design and development of computer hardware and software for building and construction; research services in the field of building and construction; software as a service (SaaS) for building and construction; software as a service (SaaS) for providing design information and advice in the field of building and construction; software as a service (SaaS) to identify and mitigate risks in building and construction; software as a service (SaaS) to plan, optimise and implement building and construction services including localisation, diagnostics, prognostics and other management application;
45	(7) Consulting in the field of obtaining city building permits
