Produits (Classe de Nice & Énoncé(s))

- 6 (1) Common metals and their alloys; building materials of metal, namely, floor panels, fascia, dam beams for temporary flood protection; buildings, transportable, of metal; railway construction material of metal; non-electric cables and wires of common metal; ironmongery in the nature of metal brackets for general use; small items of metal hardware in the nature of carabiners of metal; pipes and tubes of metal; metal products, in particular scaffolding of metal, metal building components in the form of slabs and beams, building structures of metal, metal reinforcement materials for construction and flood protection, reinforcing materials of metal for building, building and construction materials and elements of metal in the nature of floor panels, fascia, structural platforms being structures of metal, metallic mountings for mounting and demounting of ceiling and wall panels, laminated metals in the nature aluminum sheets, aluminum rods, aluminum beams, aluminum hollow profiles, mooring bollards of metal and alluminum, rotating junctions of metal for pipes, roadways of metal, metal brackets for general mounting use, mouldings of metal for building, shaped metal portions in the nature of shaped metal manhole security barrier, gantries being structures of metal for mounting ceiling and wall panels, threaded bars of metal, building castings of metal, building castings of metal alloys, cable clamps of metal, clips of metal for tubes, metal clips for cables, collets of metal for mounting ceiling and wall panels, other than parts of machines, materials of metal for scaffolds, structures of metal in the nature of metal shelter structures, reinforcing materials of metal for building purposes and flood protection, anchorage plates of metal, anchors of metal, reinforcing materials, of metal, for concrete, fittings of metal for pipes, reinforcing bars of metal for use in brickwork, ramps being structures of metal, containers of metal for storage and transport, ties of metal for use in building; building materials of metal for civil engineering, canal construction, structural engineering and flood protection including large-area steel shoring, in particular shoring elements and formwork elements of metal, namely, steel shoring panels, supports, props, spindles, struts, slide rails, chateau planks, sheet piles, supporting frames and stretching frames, formwork panels, pressure beams, posts, stabilisers, and guide frames; boxes of metal for shoring trenches, metallic building components in the nature of floor panels, fascia, rails of metal for building, link chains

- 7 of metal, tanks of metal for storage, and metal bung covers; shoring apparatus of steel, in particular shoring panels, shuttering boards, threaded spindles;
(2) Drilling machines; machines and machine tools for treatment of materials and production of mineral water; motors, other than for land vehicles; machine coupling and transmission components except for land vehicles; construction machinery for sewer construction and structural engineering, in particular for large-scale steel construction; mechanical equipment, for use in civil engineering, earthworks, construction works, oil and gas extraction, mining extraction and flood protection, especially, vibrators and other machines for driving, drawing and compacting, drive units for construction machines, and machine parts in the nature of connection forks, tensioners, safety grippers and earth augers; parts and accessories for all the aforesaid goods, included in this class;

Services (Classe de Nice & Énoncé(s))

- 35 (1) Advertising; business management; business administration; providing office functions; retail store services in relation to building materials, especially, trench shoring devices, namely, of, shoring elements, formwork elements goods of metal, namely, transportable constructions of metal, boxes of metal for shoring trenches, components of metal, ironmongery and small items of metal hardware, pipes of metal and rails for building, link chains of metal, metal cables and wires not for electrical purposes, containers of metal, and bung covers; retail store services in relation to building equipment and machines, in particular trench shoring devices, namely, transportable constructions of metal
- 37 (2) Construction, namely, building construction, civil engineering and flood protection; repair of construction machines and construction materials for civil engineering and flood protection; installation in the context of fitting construction materials for civil engineering; installation in the context of fitting construction materials for flood protection; construction services, especially, construction of civil engineering structures, sewer construction, engineering construction of buildings, civil engineering construction of buildings, flood protection, structures, and construction equipment rental, in relation to building apparatus and tools, temporary flood protection, especially, trench shoring devices; rental, in relation to building equipment and building machines, especially, equipment, for use in trench shoring, civil engineering, for earthworks, building construction, oil and gas extraction, and mining extraction; underground civil engineering services being earthworks services in the nature of excavating for building construction, building construction, oil and gas extraction, mining extraction and flood protection
- 42 (3) Scientific and technological services, engineering services, namely, scientific research, analysis, testing in the field of construction, and research and design relating thereto; industrial analysis and research services in the

field of building construction services; computer software design; scientific and technological services, namely, scientific research, analysis, testing relating to underground construction, ground works, construction work, extraction of oil and gas, mining works, flood protection; testing, authentication and quality control, relating to underground construction, ground works, construction work, extraction of oil and gas, mining works, flood protection
