## Notification of Change Regarding Electricity Calibration Console Certification Worksheets used with EL-ENG-12-01 and P-E-01

Measurement Canada (MC) is hereby notifying that effective July 1, 2013, the worksheets used with the calibration and certification requirements and procedures for electricity meter calibration consoles published in MC documents EL-ENG-12-01 and P-E-01, will no longer be posted on the Agency's website.

Stakeholders interested in obtaining a copy of the worksheets from the Agency for certification of electricity consoles can contact the Regional Electricity Specialist or the Senior Program Officer responsible for electricity measurement.
