**Re: *Canada Gazette*, Part I, Volume 154, Number 37 – September 12, 2020,
Consultation on the Technical and Policy Framework for the 3650-4200 MHz
Band and Changes to the Frequency Allocation of the 3500-3650 Band,
SLPB-002-20**

As a leading global content company, ViacomCBS Inc. (ViacomCBS) currently delivers numerous programming services to Canada via fixed satellite service that relies on the 3650-4200 MHz band (3800 MHz band). It is highly important to ViacomCBS that there is no adverse impact on our ability to continue delivering our programming as a consequence of any decision to repurpose the 3800 MHz band for terrestrial mobile use.
