Re: Notice No. SMSE-004-13 — Consultation on Proposed Revisions to the Canadian Table of Frequency Allocations

I am writing to provide my comments on this notice.

I am a Radio Amateur, and I will confine my remarks to matters respecting the Amateur Service.

B1 (AI 1.15) — Radiolocation Service Allocations for Oceanographic Radar Applications in the 3 to 50 MHz Range

Concerning 5250-5450kHz, I oppose this revision as it omits any reference to an Amateur Service allocation in this band. This is a matter which was the subject of a previous consultation in May 2012 - [SMSE-010-12](#) - on which your department has taken no action. Please include the Amateur Service as a secondary service in this band.

B3 (AI 1.23) — Secondary Amateur Allocation in the 415 to 526.5 kHz Range

I support the revision as presented in your consultation paper.

**F2 — Other Footnotes Modified at WRC-12 and Relevant to the Canadian Table
MOD 5.142**

I support the revised wording.
